Acting

Civil Registrar

# MESSAGE

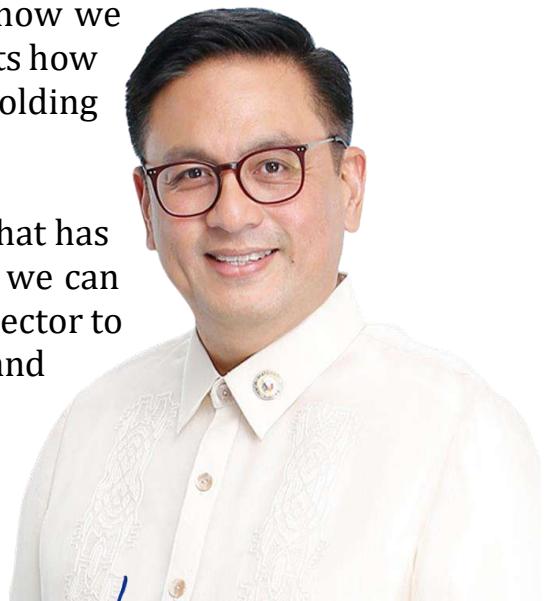

The work of civil registration often happens quietly, behind desks and documents, yet it is one of the most essential foundations of governance. Each registered birth, death, marriage, or legal record is more than just paperwork—it is a reflection of our people's lives and rights, and a vital key to accessing public services.

I commend the Local Civil Registry of Muntinlupa for its continued commitment to efficient, accurate, and compassionate service. Your work ensures that every Muntinlupeño is recognized—not just on paper, but in the eyes of the law, of government systems, and of society.

As we move further into digital transformation and data-driven decision making, your role becomes even more crucial. Accurate and timely civil registration data allows us to plan better, allocate resources wisely, and design programs that truly respond to the needs of our people.

This Civil Registration Report is a mirror of how we value identity, family, and citizenship. It reflects how well we are doing in protecting rights and upholding dignity at every stage of life.

Let this report not only serve as a record of what has been done, but as a guide toward what more we can improve. As always, I call on every office and sector to work together toward a more responsive and inclusive city.

  
**HON. RAZZANO RUFINO B. BIAZON**  
*City Mayor*  
Muntinlupa City

# MESSAGE

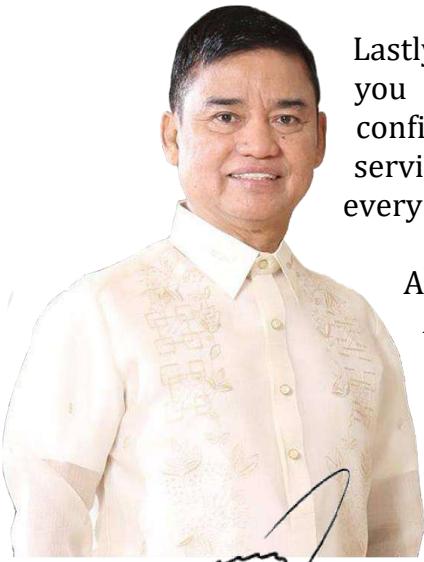

As a public servant, our duty is to promote and protect the rights of every Muntinlupeño including their *right to identity*—that is to be legally recognized as citizen of our city and our nation, with rights and responsibilities.

This is where Civil Registration plays an important role. Maintaining a comprehensive record of births, deaths, marriages, and other important life events ensures proper documentation and preservation of vital records and identity of every individual.

Moreover, local civil registry report is crucial in providing valuable demographic data for government planning, policy-making, and development. It is the foundational groundwork to which essential state services like education, social security, and healthcare are built on.

With this, allow me to extend my sincerest appreciation and congratulations to the dedicated and hardworking men and women of Muntinlupa Local Civil Registry Office who collaborated and put great effort in preparing this report.

This publication serves as a reminder of all your hard work and commitment in strengthening our national statistics. Remember, that the intention of this report is not just to conform with legal formalities but mainly to provide accurate data for evidence-based policymaking of our government.

Lastly, it is my hope that this report compels you to work more with high spirit and confidence as you bring civil registration services closer to the people and ensure that every life is counted, recognized, and celebrated.

Again, congratulations and may the Almighty God continue to bless us and protect us!

**JAIME R. FRESNEDI**  
*Congressman*  
One District of Muntinlupa

## Message from the Local Civil Registrar

I present the 2024 Civil Registration Report for Muntinlupa City with great appreciation. This report highlights civil registration activities over the past year and offers meaningful insight into the demographic trends and realities within our community.

Civil registration plays a vital role in our society - recording births, deaths, marriages, and other legal milestones that shape the lives of every Muntinlupeño. Behind every figure is a story: a newborn welcomed, a life honored, a family formed. This report reflects those stories and our unwavering effort to document them accurately and timely.

In line with this mission, we significantly strengthened our community engagement efforts throughout 2024, conducting 28 targeted civil registration activities across various barangays in Muntinlupa City. These activities enhanced service accessibility, ensuring that all Muntinlupeños receive accurate documentation of significant life events.

The success of our operations is thanks to the dedication of the staff of the Local Civil Registry Office, who consistently deliver on our commitment to public service. We take pride in embodying **Mayor Ruffy Biazon's guiding principle of "Free Service with a Smile,"** where **FREE** stands for **Fast, Responsive, Efficient, and Effective** Civil Registration service.

As we look ahead, we reaffirm our commitment to innovation, transparency, and community-centered service. Thank you for your continued trust and support. We look forward to serving you with excellence in the years to come.

**DANIEL CHITO C. VALERIO I**  
Acting Civil Registrar  
**Local Civil Registry Office – Muntinlupa City**

## About This Report

The **2024 Civil Registration Report** provides a detailed account of the activities and performance of the Local Civil Registry Office (LCRO) of Muntinlupa City for the year 2024. It presents data on the registration of vital events—including births, marriages, deaths, and other legal documents—in compliance with **Republic Act No. 3753** (Civil Registry Law) and the standards set by the **Philippine Statistics Authority (PSA)**.

This report aims to promote transparency and accountability by informing local government officials, partner agencies, and the public about the LCRO's service delivery and operational outcomes.

## Scope of the Report

- Statistical summaries of registered births, marriages, deaths, and legal instruments.
- Assessment of service accessibility, efficiency, and timeliness.
- Documentation of outreach programs such as free delayed registration and mobile registration services.

## Civil Registry Fees

Included in this report are the prevailing civil registry fees, which have remained unchanged since 2009 (City Ordinance 09-085). These fees support the administrative functions and service provision of the LCRO.

## Commitment to Service

Under the leadership of Officer-in-Charge **Daniel Chito C. Valerio I**, and guided by Mayor Ruffy Biazon's **FREE** (Fast, Responsive, Efficient, Effective) Service with a SMILE, the LCRO continues to provide accessible, accurate, and secure civil registration services to all residents of Muntinlupa City.

# LIVE BIRTH REGISTRATION

Live birth is the complete expulsion of a product of conception from its mother, irrespective of the duration of pregnancy, which the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles, whether or not the umbilical cord has been cut off or the placenta is still attached; each product of such birth is considered alive.

*-AO 1 series of 1993, IRR of ACT NO. 3753 also known as "Civil Registry Law"*

A vital record that documents the birth of a person.

**Timely registration:**

*Within 30 days from the date of birth*

**Payment :**

*For Married couples – Free registration*

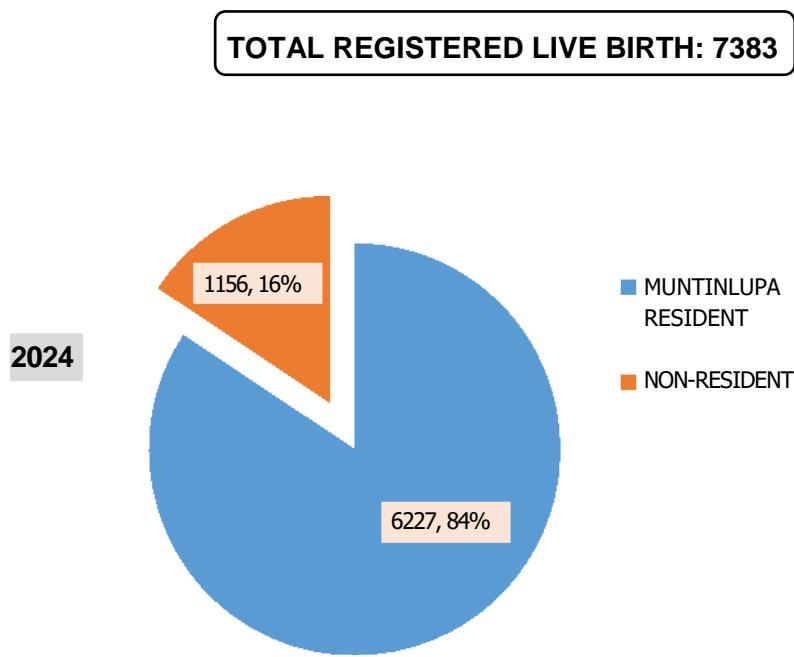

*Delayed registration – P150*

**For Not Married couples:**

*Admission of paternity – P120*

*Affidavit to Use the Surname of the Father – P200*

## 1. 2024 Birth Registrations Disaggregated By Mother's Residency

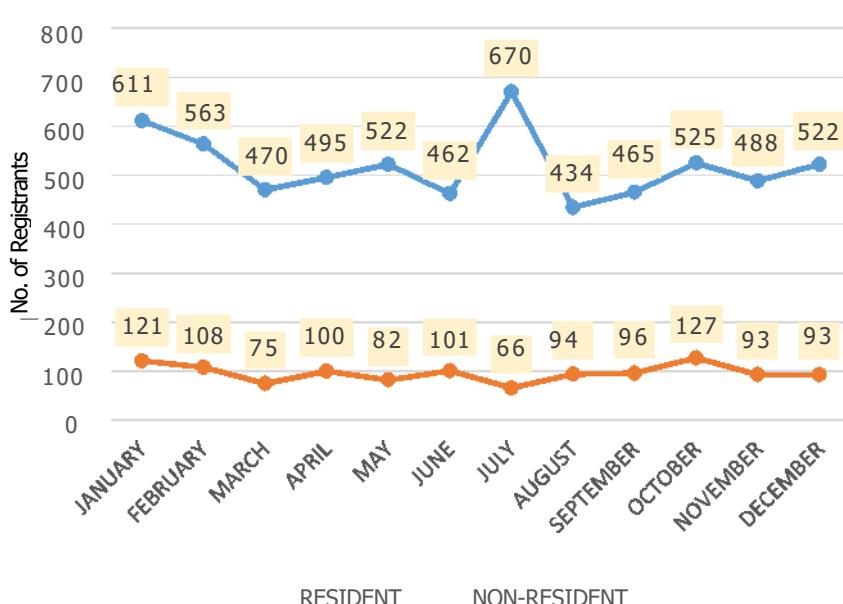

From January to December, a total of 7,383 live births were registered. Most of these—6,227 or **about 84%**—were to **mothers who live in Muntinlupa**, while the remaining 1,156 (around 16%) were from mothers residing outside the city. When it comes to gender, baby boys had a slight lead, with 3,812 births compared to 3,571 baby girls.

### July 2024 Sets Record for Registration

Birth registrations varied over the year, **with July seeing the highest number at 736**, while August recorded the lowest at **528**.

Figure 1.2 Line Chart of 2024 Birth Registrations by Residency and Month

## 5 Year Period: 2020 - 2024

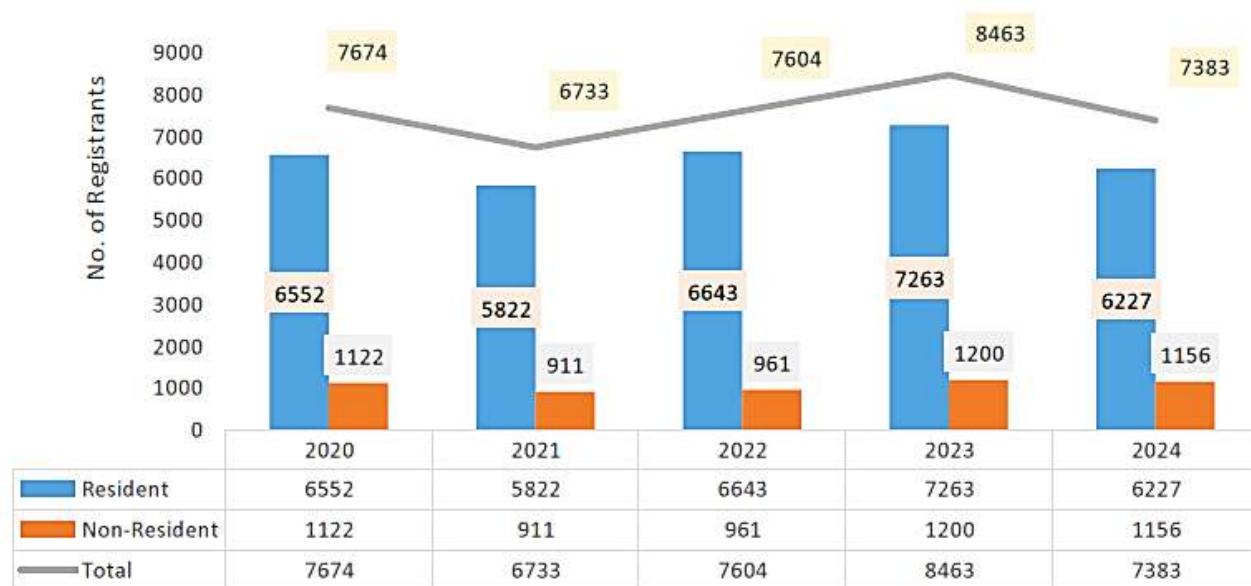

Figure 1.3 Line Chart of 2020-2024 Birth Registrations by Residency

## 2020 - 2024 Civil Registration Report: Reported vs Actual Birth Year

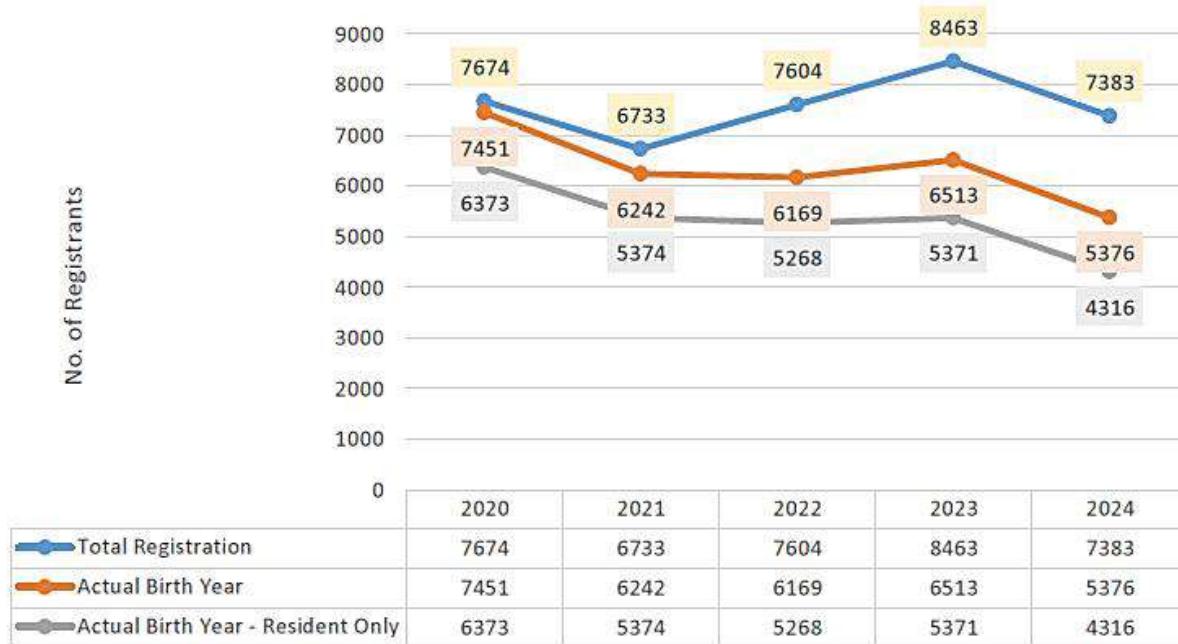

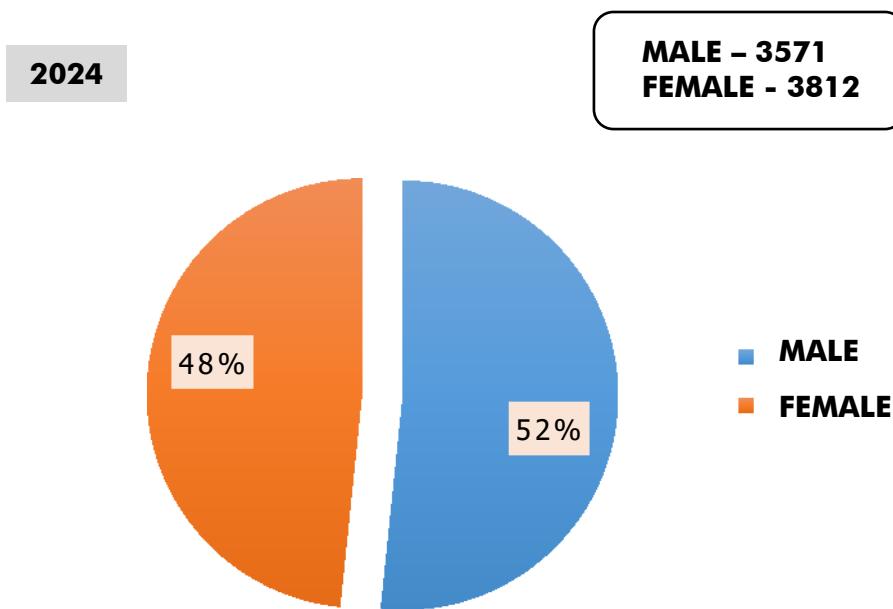

Figure 1.4 Line Chart of 2020 - 2024 Civil Birth Registrations, Actual Birth Occurrences and Residency

Figure 1.4 compares the total number of birth registrations with the actual birth year of the registrants. As shown in the chart, the numbers don't always match up. For example, in 2020, there were 7,674 registrations, but only 7,451 of those were for babies born in that year. The gap is likely due to late registrations or delays in reporting.

## 2. Birth Registrations Disaggregated By Gender & Monthly Registration

The 2024 pie chart shows an almost even split between Male and registrations – 52% were boys (3,812 registrations) and 48% were girls (3,571 registrations).

Figure 2.1 Pie Chart of 2024 Birth Registrations by Gender

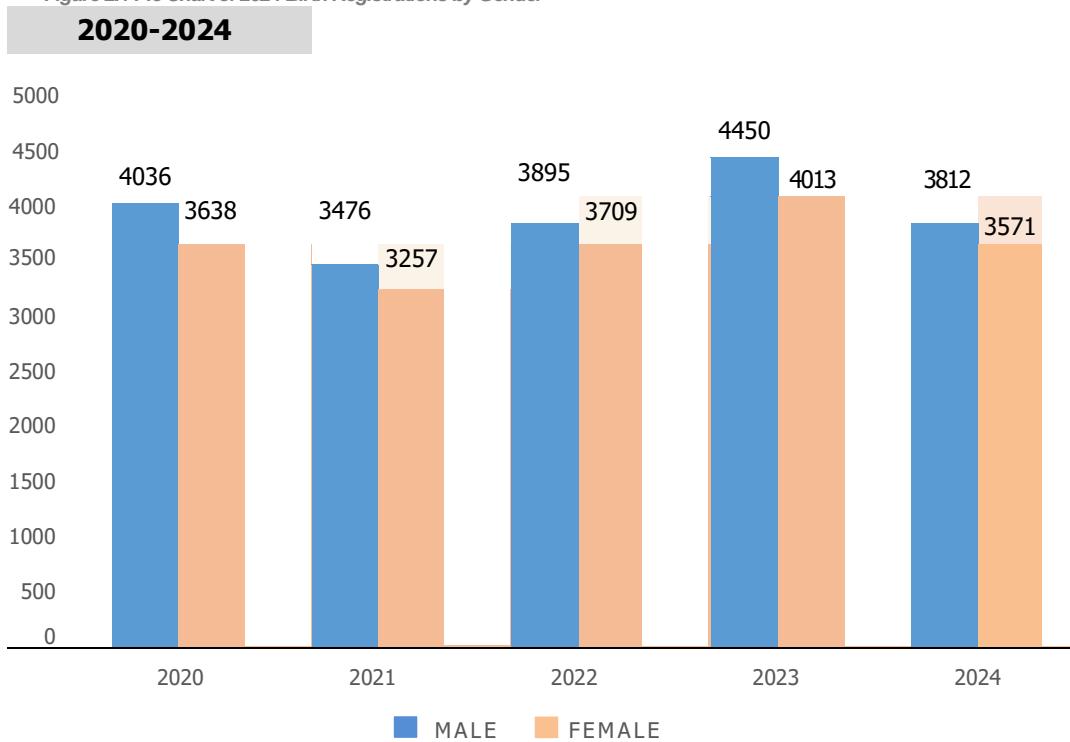

Figure 2.2 Bar Graph of 2020 – 2024 Birth Registrations by Gender

**Figure 2.2**, which covers the years 2020 to 2024, shows that male and female birth registrations have remained fairly close each year, with only slight variations. In 2020 and 2023, more boys were registered than girls, while in 2021, 2022, and 2024, girls slightly outnumbered boys.

### 3. Birth Registrations Filing Status - 2024 Overview

**Figure 3.1 shows that 72% of live births were registered on time (5,279), while 28% were delayed (2,104).**

Figure 3.1 Pie Chart of 2024 Birth Registrations by Filing Status

Figure 3.2 Bar Graph of 2024 Birth Registrations by Filing Status

## 2024 January - December

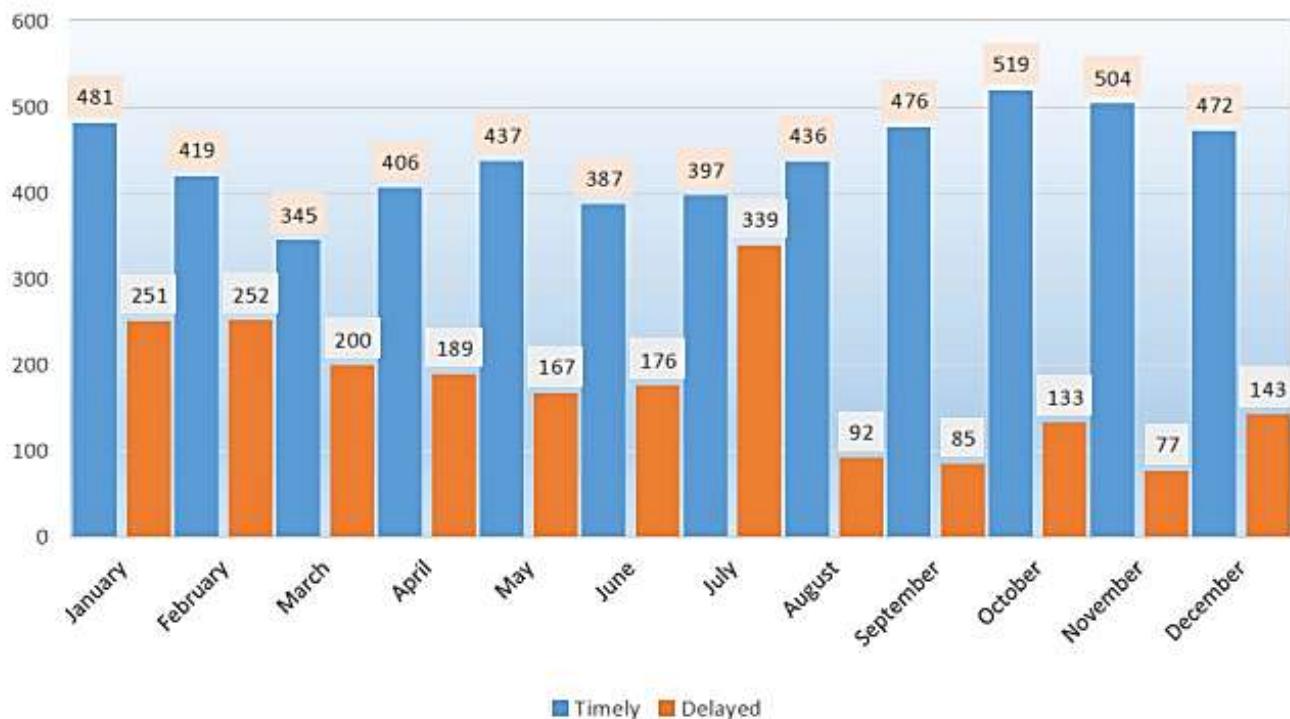

Figure 3.3 Bar Graph of 2024 Birth Registrations by Timeliness

Looking at the monthly breakdown for 2024 in the lower bar chart, timely registrations consistently outnumbered delayed ones throughout the year. Interestingly, the number of delayed registrations dropped noticeably from August to December compared to the earlier months. This could point to an improvement in how quickly births were registered during the latter part of the year.

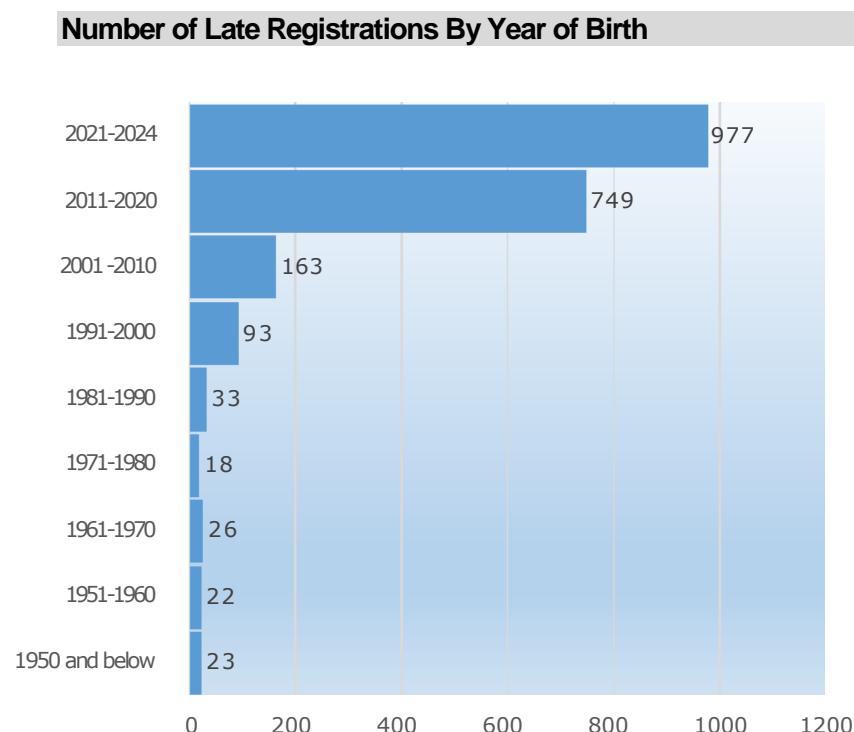

Figure 3.5 Bar Graph of 2024 Birth Registrations by Birth Year

Most delayed registrations fall within the 1 to 5-year-old group, making up 44.15% of all delayed cases. The 6 to 17-year-olds come next with 27%, followed by children under 1 year old at 14.5%. Adults aged 18 to 59 account for about 11.7%, while the smallest share of delays—2.66%—is among those 60 and older. When we look at gender, delayed registrations are fairly balanced, with slightly more females (1,075) than males (1,029). However, the gender split varies somewhat across different age groups.

| Age Group            | Male | Female | Count | %      |
|----------------------|------|--------|-------|--------|
| Less than 1 year old | 174  | 131    | 305   | 14.50  |
| 1 to 5 yr. old       | 468  | 461    | 929   | 44.15  |
| 6 to 17 years. old   | 294  | 274    | 568   | 27.00  |
| 18 to 59 years. old  | 120  | 126    | 246   | 11.69  |
| 60 and up            | 19   | 37     | 56    | 2.66   |
| Total                | 1075 | 1029   | 2104  | 100.00 |

Table 3.0.3 2024 Delayed Birth Registrations by Home Birth and Parent's Marital Status

### Delayed Registrations Disaggregated by Marital Status of Parents (Overall)

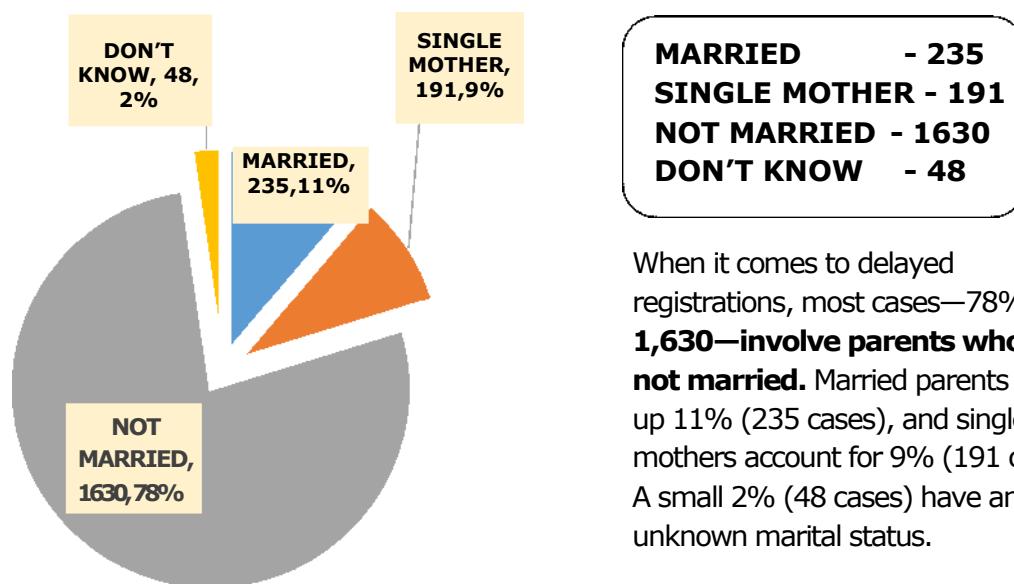

Figure 3.7 Pie Chart o1 2024 Delayed Birth Registrations by Marital Status

aren't married.

When it comes to delayed registrations, most cases—78% or 1,630—involve parents who are not married. Married parents make up 11% (235 cases), and single mothers account for 9% (191 cases). A small 2% (48 cases) have an unknown marital status.

Overall, the data show that delayed birth registration happens most often with home births and when parents

### Delayed Registrations by Barangay

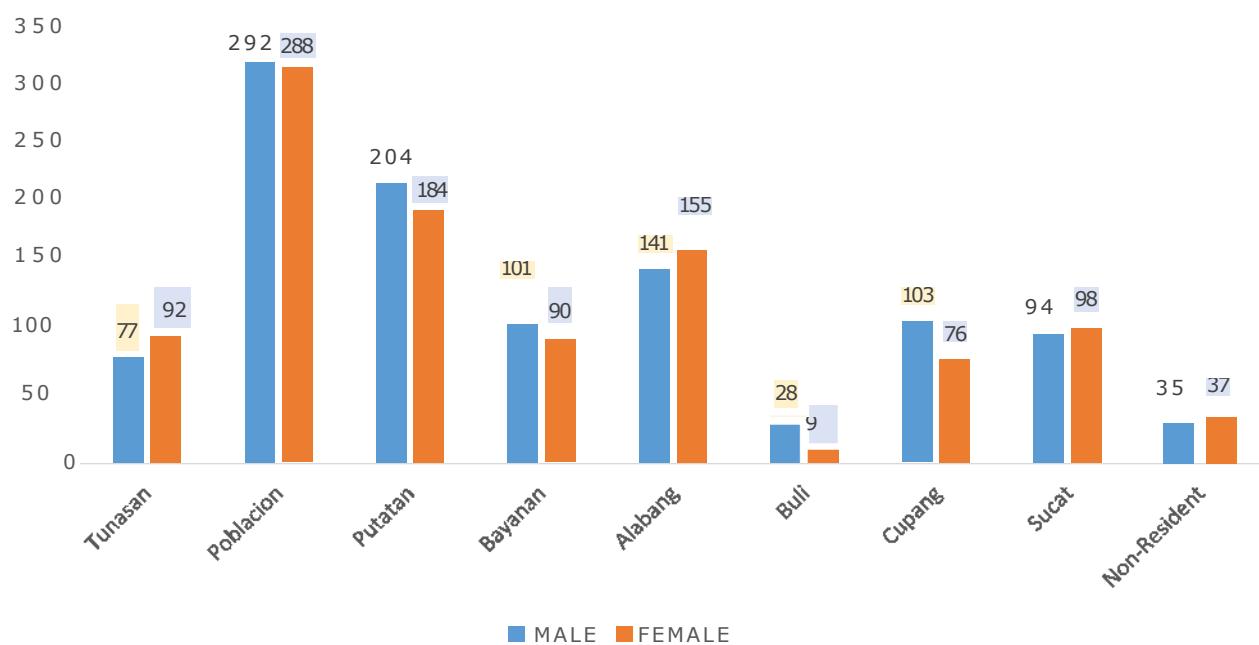

Figure 3.8 Bar Graph o1 2024 Delayed Birth Registrations by Barangay

As shown in **Figure 3.8**, Poblacion recorded the highest number of delayed birth registrations, followed by Putatan and Alabang. The numbers between males and females were fairly balanced across most barangays. Buli had the lowest number of cases, while a few were also recorded under non-residents.

#### 4. Birth Registrations By Place of Occurrence

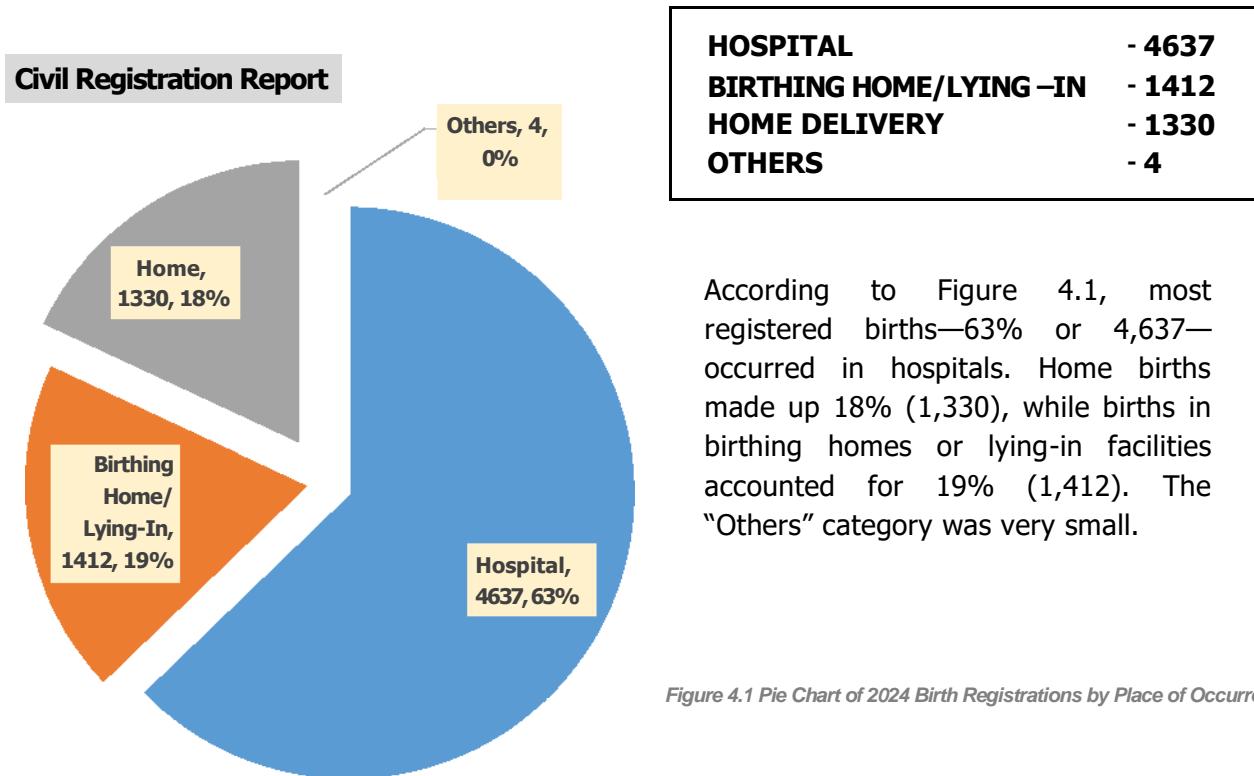

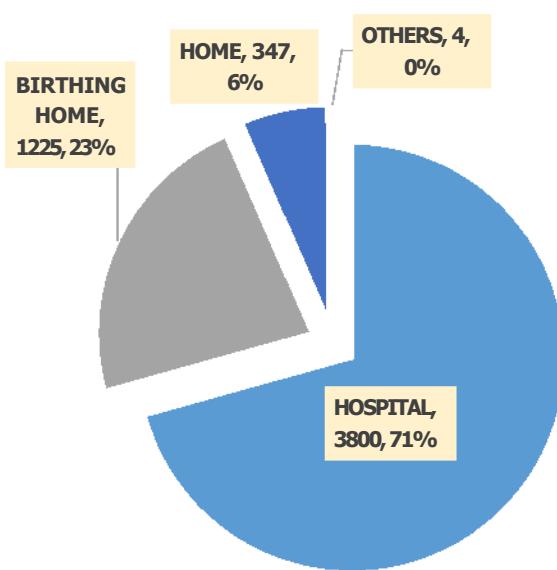

Figure 4.1 Pie Chart of 2024 Birth Registrations by Place of Occurrence

#### 2024 Actual Birth Occurrence

Looking at the actual births in 2024, hospital deliveries again made up the largest share at 71% (3,800). Home births were 23% (1,225), and births in birthing homes dropped to 6% (347). The “Others” category stayed minimal.

Comparing the data, hospital births are the most common in both actual occurrences and registrations. Interestingly, home births make up a bigger share of actual births than their registration numbers suggest. This gap points to differences in how births are registered depending on where they occur.

Figure 4.2 Pie Chart of Birth Registrations Born in Year 2024

## Civil Registration: 2020-2024

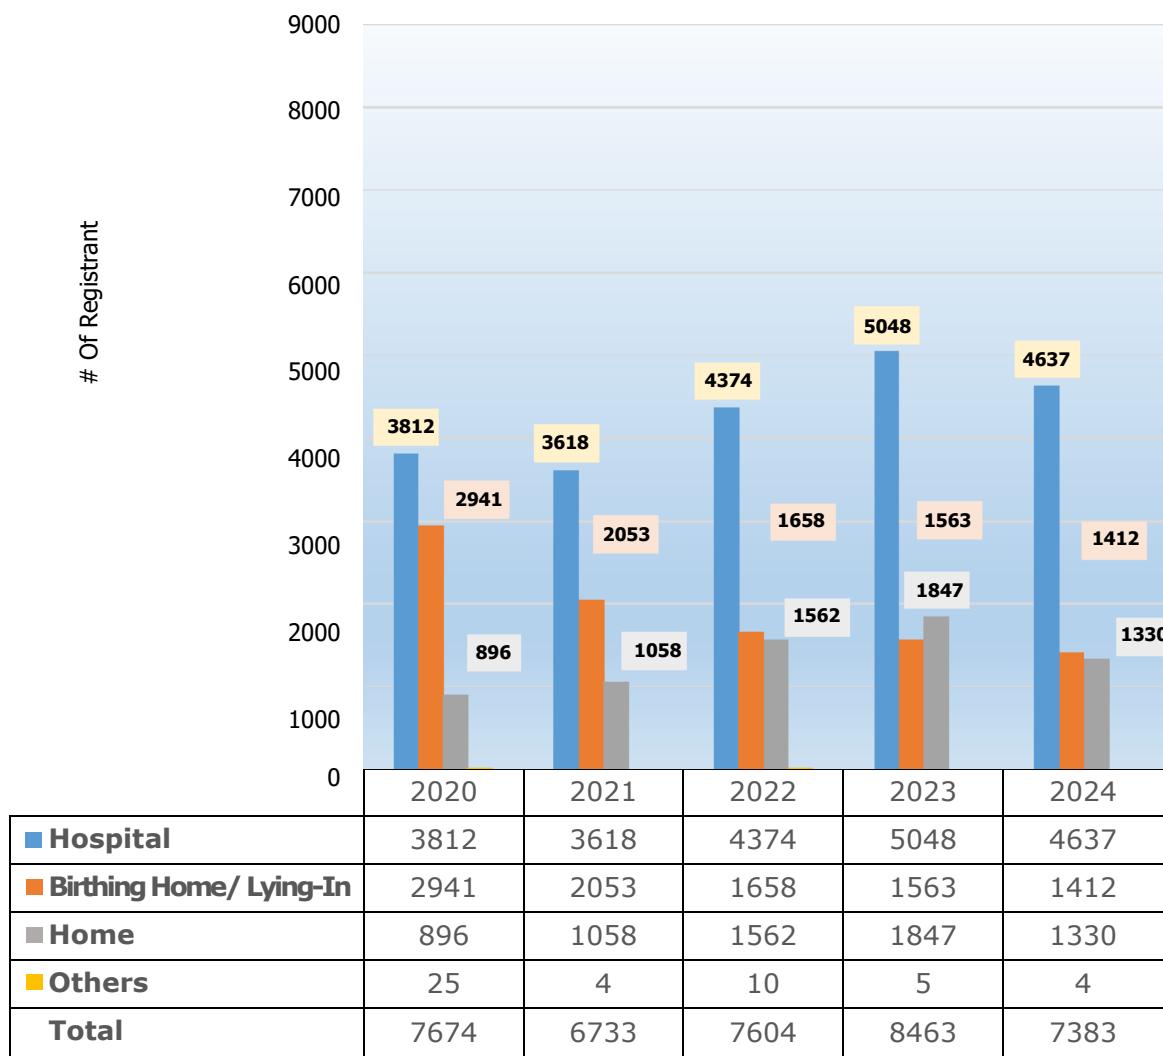

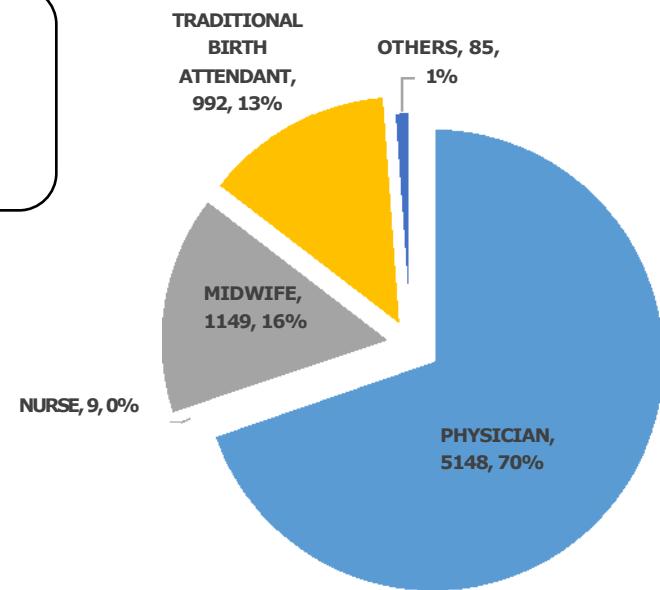

Figure 4.3 Bar Graph of 2020 - 2024 Birth Registrations by Place of Occurrence

**Home birth registrations followed a similar pattern, rising through the early years, reaching a peak in 2023, then falling in 2024.**

**Overall, the total number of birth registrations in Muntinlupa fluctuated each year, reflecting these shifts across different birth settings.**

## 5. Birth Registrations By Attendant at Birth

|                             |        |
|-----------------------------|--------|
| PHYSICIAN                   | - 5148 |
| NURSE                       | - 9    |
| MIDWIFE                     | - 1149 |
| TRADITIONAL BIRTH ATTENDANT | - 992  |
| OTHERS                      | - 85   |

**Figure 5.1 shows physicians attended the most registered births (70%),** followed by midwives (16%) and traditional birth attendants (13%). Nurses and "Others" attended very few (0% and 1%).

Figure 5.1 Pie Chart of 2024 Birth Registrations by Attendant at Birth

## CIVIL REGISTRATION: 2020 - 2024

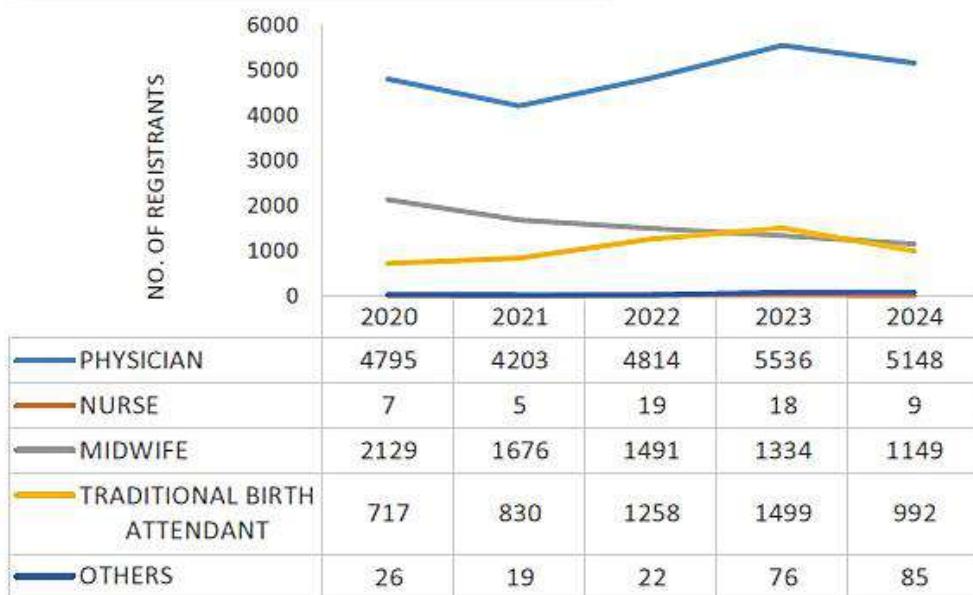

Figure 5.2 Line Graph of 2020- 2024 Birth Registrations by Attendant at Birth

The line graph from 2020 to 2024 shows that physician-attended births consistently make up the largest share. Births attended by midwives and traditional birth attendants are fewer but still significant, while those attended by nurses and others remain consistently low.

## 6. Birth Registrations By Parents' Marital Status

**Most registered births—64% (4,735)—involve parents who are not married.** Married parents make up 30% (2,231), while single mothers account for 5% (369). Only a small fraction, about 1% (48), have

### 2024 Actual Birth Marital Status

Figure 6.1 Pie Chart of 2024 Birth Registrations Classified by Parents' Marital Status

an unknown marital status.

The 2024 actual birth data shows a similar pattern: 60% (3,232) of births were to unmarried parents, 37% (1,964) to married parents, 3% (180) to single mothers, and a negligible number with unknown status.

## 7. Birth Registrations By Birth Weight

**ABOVE 2500 grams – 6438**  
**BETWEEN 2500 grams - 945**

■  $\geq 2500$  ■ < 2500

Figure 7.1 Pie Chart of 2024 Birth Registrations by Birth Weight

### Birth Weight Disaggregated by Gender

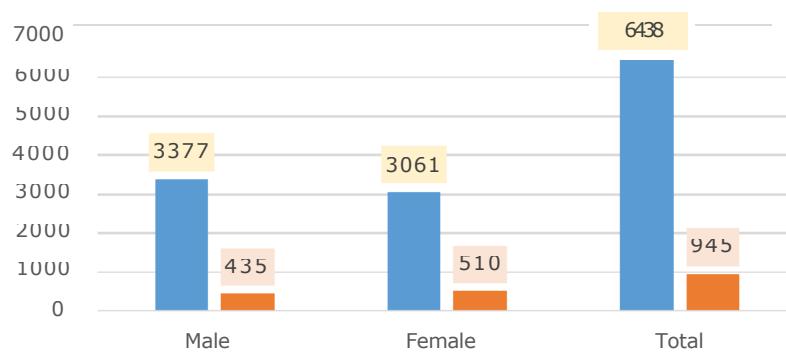

Figure 7.2 Bar Graph of 2024 Registered Births by Gender and Birth Weight

Most babies registered in Muntinlupa weigh over 2,500 grams, which is considered a healthy birth weight. While the number of these normal-weight babies goes up and down a bit each year, it generally stays quite high overall.

On the other hand, babies weighing less than 2,500 grams—often classified as low birth weight—are less common but have been slowly increasing over the past five years. Interestingly, there's a small trend showing that female newborns are slightly more likely to have a lower birth weight compared to males.

### 5 Year Period: 2020-2024

## 2024 Birth Weight: Reported vs Actual Birth vs Actual Birth - Resident

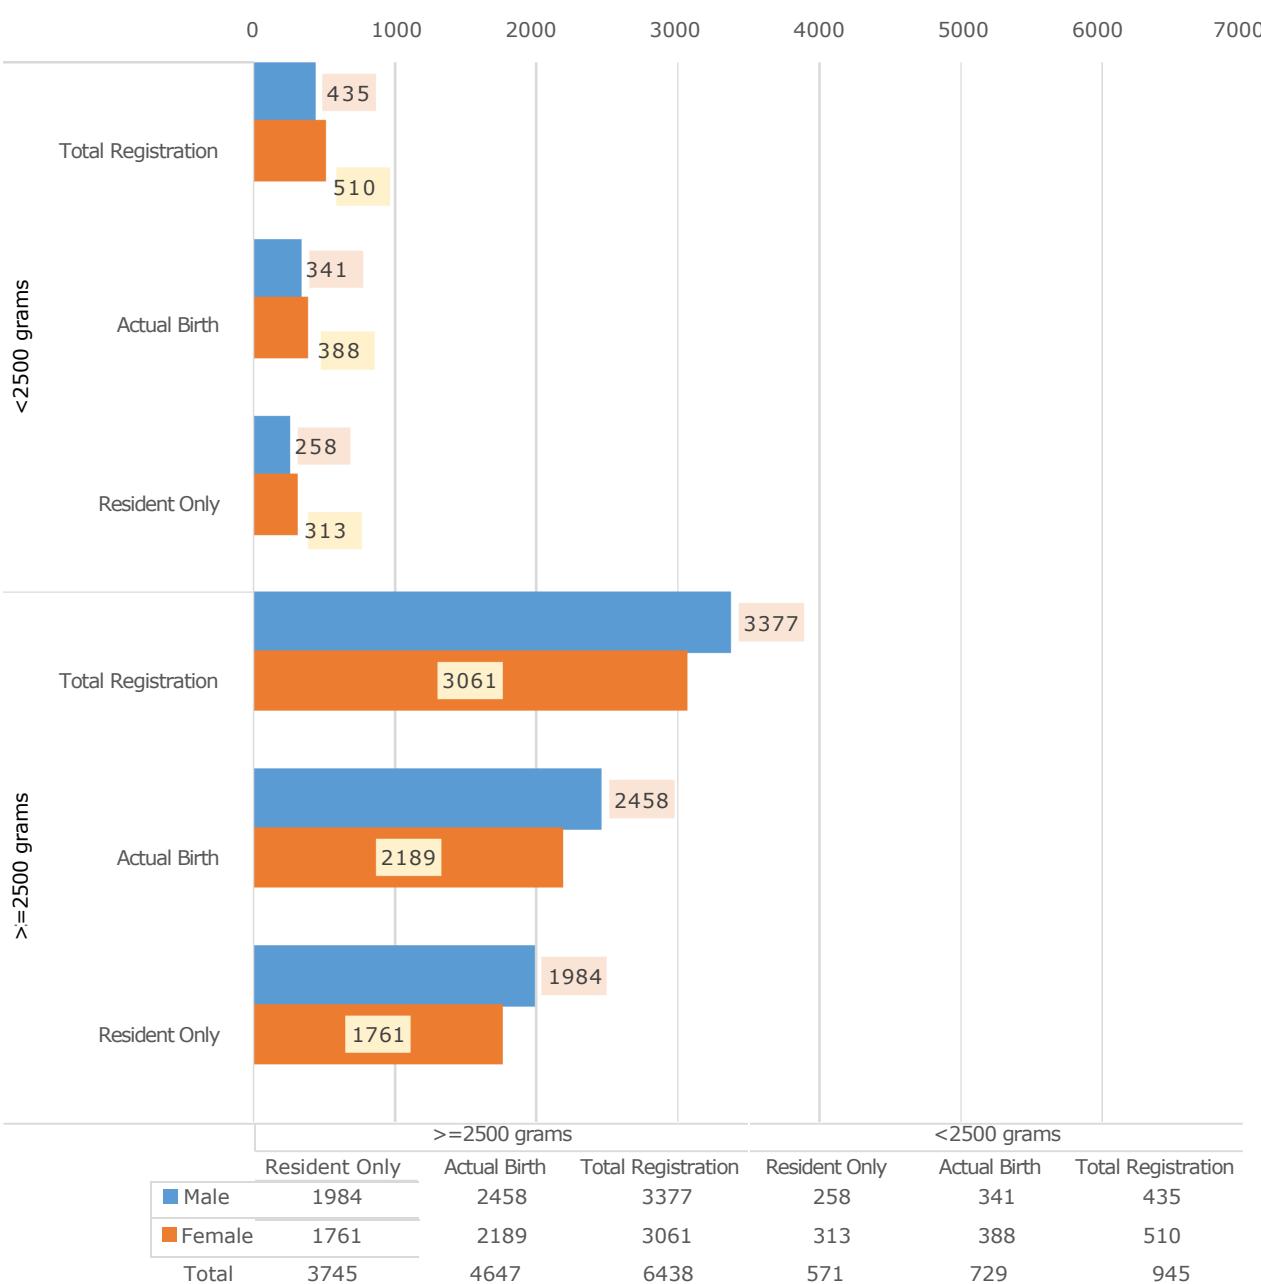

Figure 7.4 Bar Graph of 2020-2024 Registered Births, Actual Birth Occurrences, and Residency by Birth Weight

## 8. Birth Registrations Disaggregated by Barangay and Gender

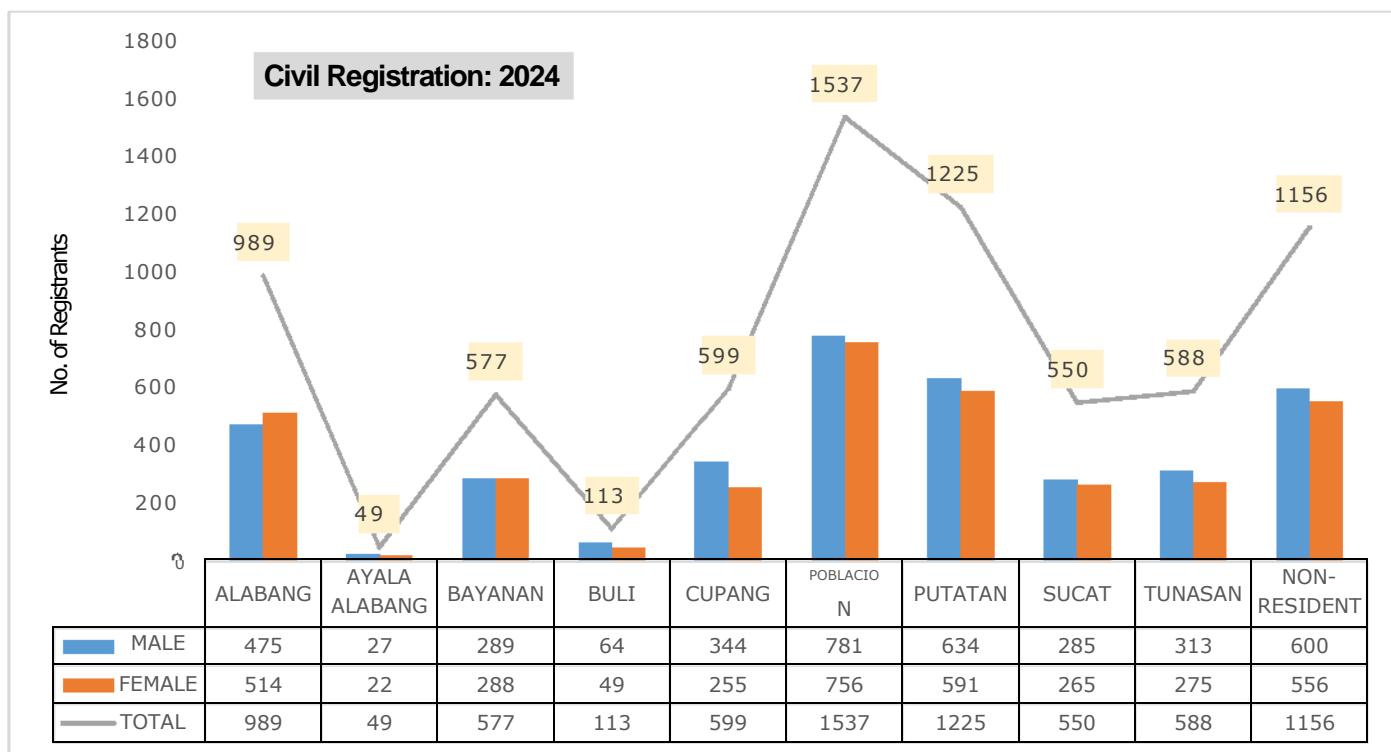

Figure 8.1 Bar Graph of 2024 Birth Registrations by Barangay and Gender

From the 2024 Birth Registrations among the listed Barangays, **Poblacion** recorded the highest number of total registrations with 1537. **Putatan** (1225) and **Alabang** (989) also exhibited substantial registration figures for the year. In contrast, **Ayala Alabang** continued to have the lowest number of birth registrations at 49. The remaining Barangays, including **Bayanan**, **Buli**, **Cupang**, **Sucat**, and **Tunasan**, showed moderate levels of total birth registrations, generally ranging from approximately 113 to 599.

Within most of these Barangays, the number of male and female registrants was fairly balanced in 2024. **Alabang** and **Poblacion** had slightly more female registrations, while **Buli** and **Cupang** had a slight male majority.

In summary, focusing solely on the specific Barangays within Muntinlupa, **Poblacion** had the highest number of birth registrations in 2024, while **Ayala Alabang** had the lowest. The gender distribution across these Barangays was generally even for the year.

2020 - 2024 Civil Registration Disaggregated By Barangay and Gender: **FEMALE**

Figure 8.4 Bar Graph of 2020-2024 Birth Registrations by Barangay – Female Children

## 9. Birth Registrations By Age Group of Mother

**Figure 9.1** illustrates the distribution of birth registrations by the mother's age at the time of birth. The majority of registered births come from mothers in their prime reproductive years, with **the highest numbers among women aged 26 to 30**. This is closely followed by mothers aged 31 to 35 and 22 to 25, showing that women in their late twenties and early thirties make up the largest share of births in Muntinlupa.

Figure 8.5 Bar Graph of 2024 Birth Registrations by Age Group of Mother

The number of births gradually decreases among both younger and older mothers. The 18 to 21 age group accounts for a moderate number of registrations, while the 41 to 45 group has noticeably fewer. Births to very young mothers aged 13 to 14 and 15 to 17 are quite rare, which is a positive sign. However, adolescent pregnancies still carry significant health and social risks, so continued efforts to prevent unintended pregnancies in these age groups are important. Even though the numbers are low, these young mothers need access to adequate support and resources.

## Civil Registration vs Actual Birth

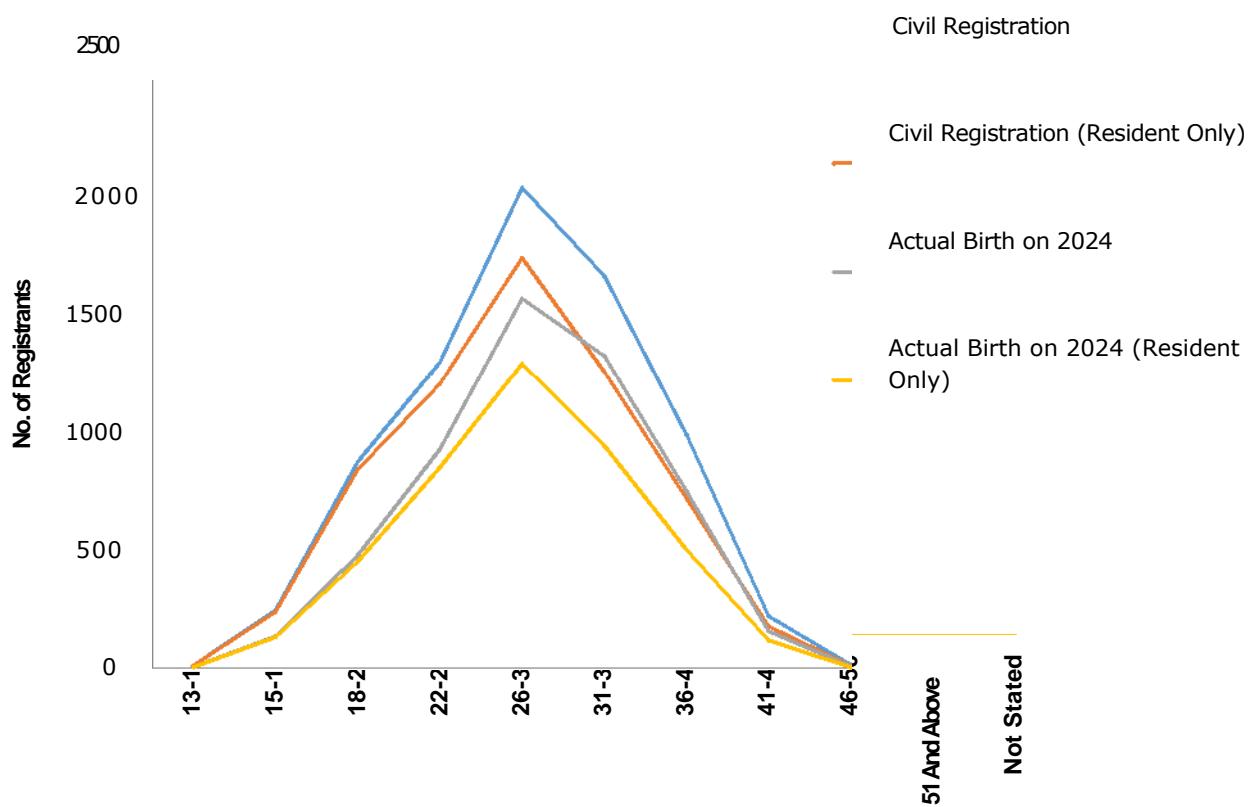

Figure 9.2 Line Graph of 2024 Birth Registrations, Actual Birth Occurrences, and Residency by Age Group of Mother

| Mother's Age Group | Civil Registration | Civil Registration (Resident Only) | Actual Birth in 2024 | Actual Birth in 2024 (Resident Only) |

Table 7.0 Birth Registrations by Age Group of Mother and Birth Order (Repeat Pregnancy)

Table 7.0 shows how birth order varies with the mother's age. Overall, first and second births are the most common across all age groups. Younger mothers, especially teenagers aged 13 to 17, mostly have their first child. It's important to note that adolescent pregnancy is generally discouraged due to the health and social challenges it can pose for both the mother and child.

As mothers get older, particularly through their twenties and thirties, we see a wider variety of birth orders, including many second, third, and even later births. For women in their late thirties and forties, while first and second births still happen, there's a noticeable increase in third or higher-order births.

Table 10.0 Birth Registrations by Age Group of Mother and Father

Table 10.0 shows the ages of mothers and fathers at the time of birth registration. Most births involve mothers in their late twenties and fathers in their late twenties to mid-thirties. Generally, parents tend to be close in age, though fathers are often older—especially when the mother is younger. For example, the data includes cases where mothers in their early to mid-teens (13–17) have partners who are much older, sometimes in their late teens, twenties, or beyond. As mothers get older, the age difference between parents usually gets smaller.

It's also worth noting that quite a few registrations don't include the father's age, which is important to keep in mind when looking at these patterns. Overall, this data helps us understand the typical age combinations of parents at birth in Muntinlupa.

### 2024 Actual Birth

| Age of Mother | Age Group of Father |           |            |            |             |             |            |            |            |           |            | Total       |

Table 12.0 Birth Registrations by Age Group Of Mother and Father – Born in Year 2024 and Muntinlupa Resident

## 12. Birth Registration Disaggregated by Mother's Religious Sect/ Religion

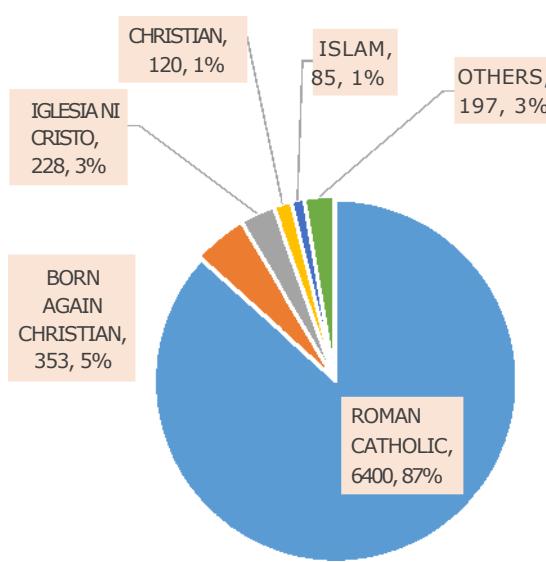

Figure 12.1. Pie Chart of 2024 Birth Registrations by Mothers' Religion

The Figure 12.1 illustrates the religious affiliations of children whose births were registered. A significant majority, **87% (6400 cases)**, were registered as **Roman Catholic**. This indicates a strong prevalence of Roman Catholicism among the registered births in Muntinlupa.

The next largest religious group is **Born Again Christian**, accounting for **5% (353 cases)** of the registrations. **Iglesia ni Cristo** represents **3% (228 cases)**. **Christian** (non-Born Again) and **Islam** each account for 1% of the registered births, with 120 and 85 cases respectively. The remaining religious affiliations are grouped under "**Others**," also comprising **3% (197 cases)**.

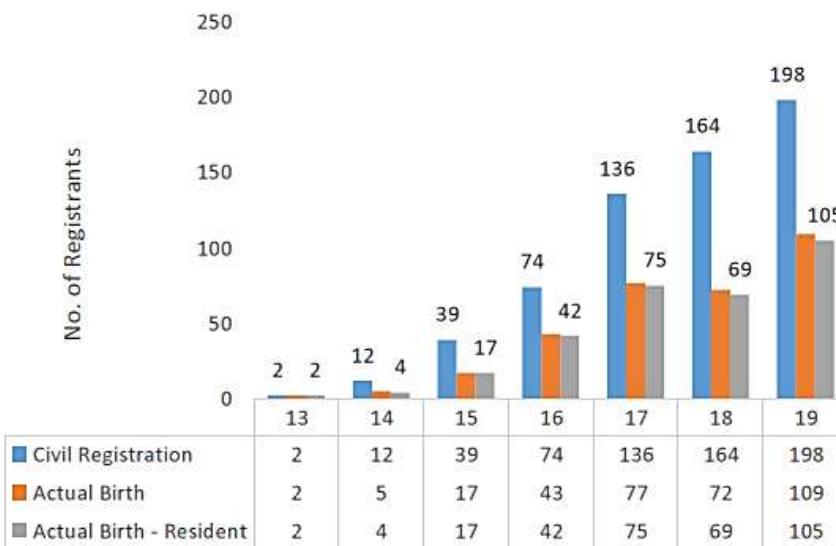

In summary, the religious breakdown of registered births in Muntinlupa is overwhelmingly dominated by Roman Catholicism. Other notable Christian denominations include Born Again Christian and Iglesia ni Cristo. Islam and non-Born Again Christians each represent a smaller proportion of the registered births.

| RELIGIOUS SECT/ RELIGION                 | Count       | %             |
|--|-------------|---------------|

## 2020 - 2024 Birth Registration Among Adolescent Mothers

Civil registrations for adolescent mothers fluctuated over the years but generally exceeded the number of actual births. Actual adolescent births showed a slight overall decrease from 2020 to 2024. Resident adolescent births followed a similar downward trend and remained slightly lower than the total actual births (see Figure 13.2).

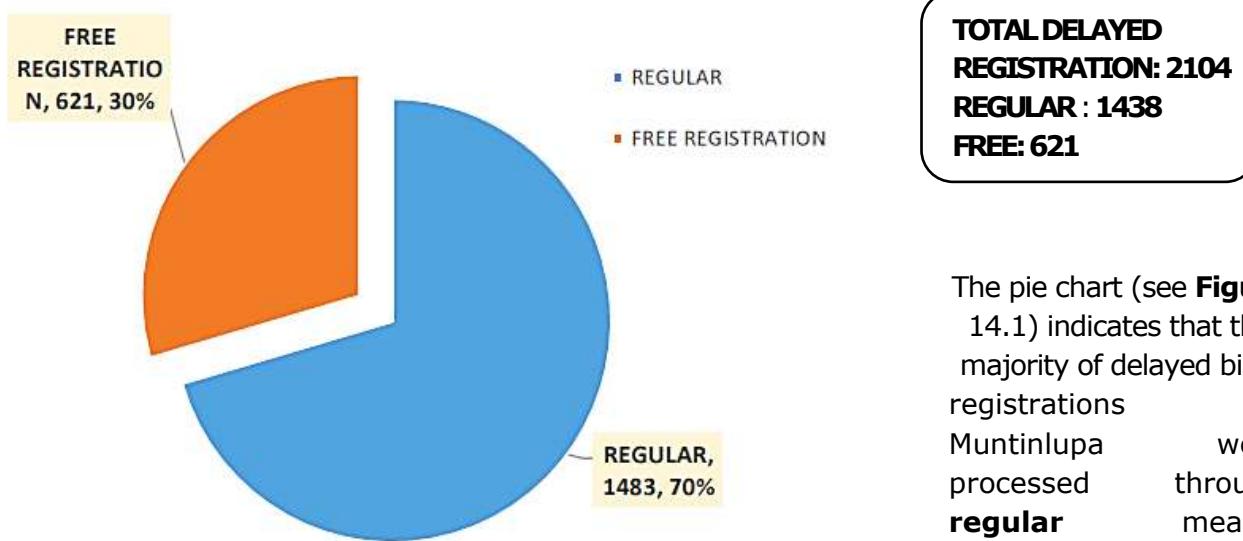

Figure 14.1. Pie Chart of 2024 Delayed Birth Registrations

transactions), was facilitated through **free registration** initiatives. These free registrations for indigent residents of Muntinlupa are likely made possible through ordinances such as **Sanggunian Panglungsod 11-56**, aiming to ease the burden of delayed registration costs for vulnerable populations.

The pie chart (see **Figure 14.1**) indicates that the majority of delayed birth registrations in Muntinlupa were processed through **regular** means, accounting for 70% (1483 transactions). A notable portion, 30% (621

#### 2020 - 2024 Delayed Registration Transactions

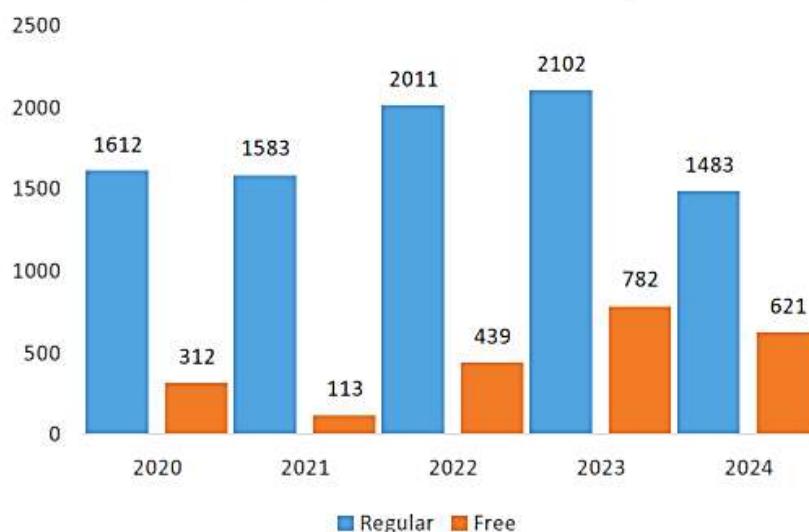

Figure 14.2. Bar Graph of 2020-2024 Delayed Birth Registrations

#### Regular Delayed Registrations (2020-2024)

The number of **regularly delayed birth registrations** in Muntinlupa fluctuated over the five years. The highest number was recorded in **2023**, with **2,102 transactions**, while the lowest occurred in 2021, with **1,583 transactions**. In 2024, the number declined slightly to **1,483**. The initial drop observed in 2021 may be attributed to the

disruptions caused by the **COVID-19 pandemic**, which likely limited public access to registration services and government transactions during lockdowns and movement restrictions.

### Free Delayed Registration Activities (2020-2024)

**Free delayed** registration activities exhibited a different pattern. The highest number of free registrations occurred in 2023 with 782 transactions, coinciding with the conduct of 28 community-based outreach activities. Significant numbers were also recorded in 2020 (312 transactions) and 2022 (439 transactions). In contrast, 2021 saw a sharp decline, with only 113 transactions, likely due to pandemic-related constraints.

In 2024, the number of free registrations rebounded to 621 transactions, supported by 27 community outreach activities conducted across various barangays and venues in Muntinlupa (see Annex 1). The strong correlation between the frequency of outreach events and the volume of free registrations underscores the effectiveness of local government initiatives in expanding access to civil registration services, particularly for indigent and underserved populations.

Table 22.0 Summary of Free Delayed Mobile Birth Registrations in the Community

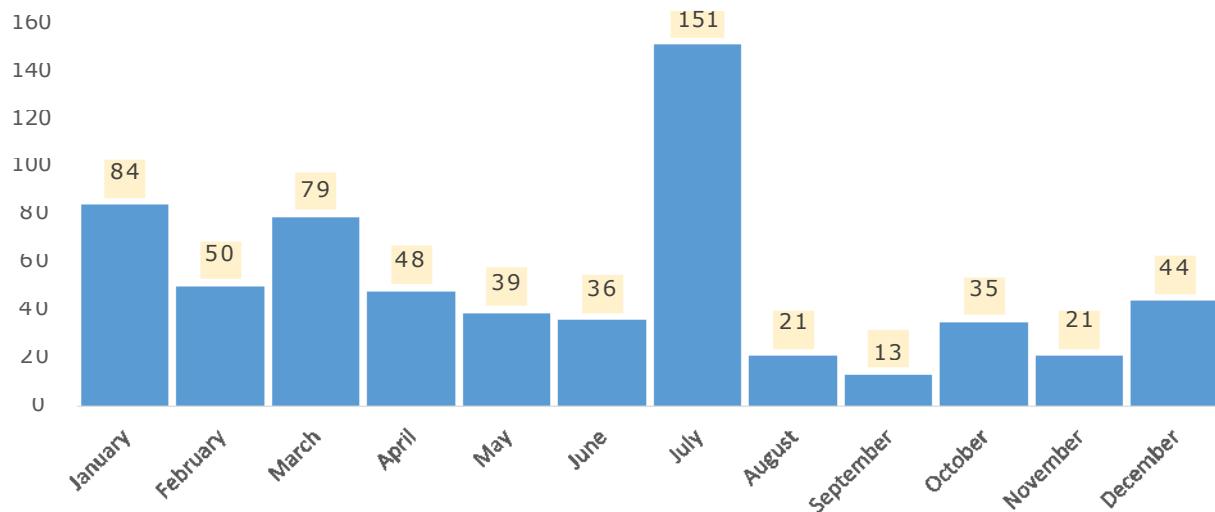

**2024 Monthly Registrations**

Figure 14.3. Bar Graph of 2024 Free Delayed Birth Registrations

**Overall**, the data indicate that **delayed birth registration remains an active and necessary service in Muntinlupa**. While the majority of these registrations are processed through **regular means**, free registration initiatives—likely supported by local ordinances such as **Sanggunian Panglungsod 11-56**, which aim to **assist indigent residents**—play a vital role in reaching underserved populations. The **success of these free programs is underscored by** the significant number of transactions recorded during years of **intensified community outreach**, particularly **in 2023 and 2024, when a high number of mobile registration activities were conducted**.

#### 14.1 Free Registrations Demographics

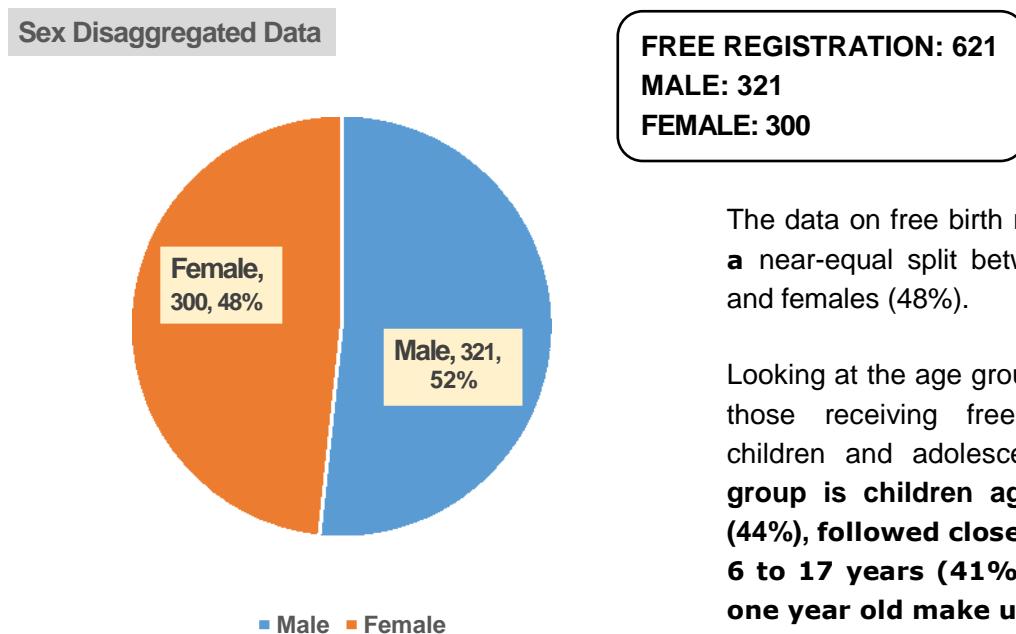

Figure 14.4. Pie Chart of 2024 Free Delayed Birth Registrations by Gender

#### By Aged Group

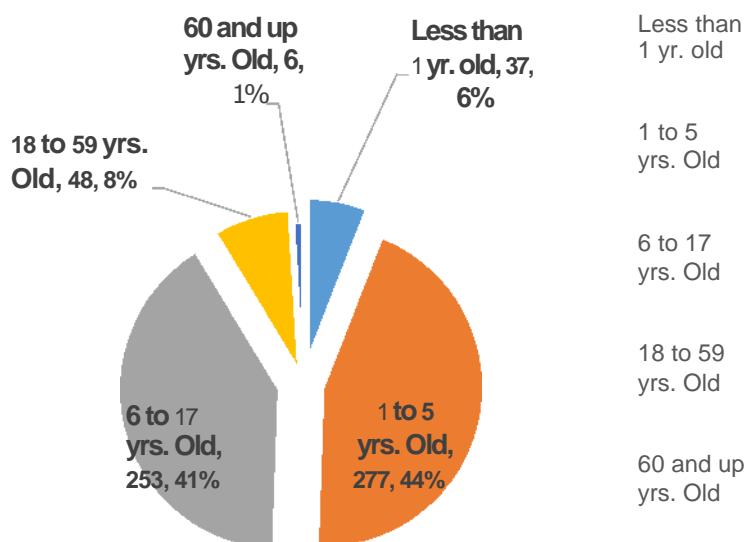

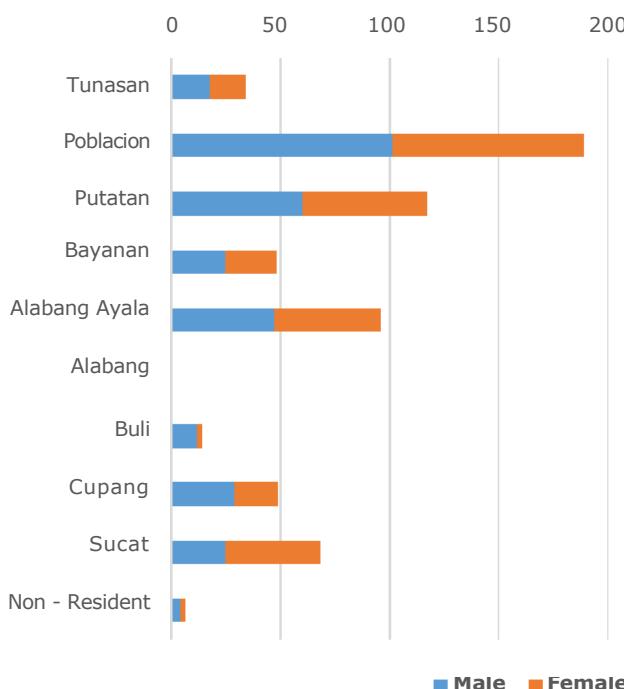

Figure 14.5. Pie Chart of 2024 Free Delayed Birth Registrations by Age Group of Registrant

**Figure 14.5** breakdown indicates that the free birth registration program in Muntinlupa primarily benefits children and teenagers, ensuring that a significant number of young residents are officially registered. The relatively balanced gender distribution suggests a similar need for this service among both boys and girls. The smaller numbers for adults and seniors suggest the program is effectively reaching the younger population who may face barriers to timely registration.

| Age Group            | Male | Female | Count | %      |
|----------------------|------|--------|-------|--------|
| Less than 1 year old | 18   | 19     | 37    | 5.96   |
| 1 to 5 yr. old       | 147  | 130    | 277   | 44.61  |
| 6 to 17 years. old   | 128  | 125    | 253   | 40.74  |
| 18 to 59 years. old  | 26   | 22     | 48    | 7.73   |
| 60 and up            | 2    | 4      | 6     | 0.97   |
| Total                | 321  | 300    | 621   | 100.00 |

Table 23.0 Free Registration Beneficiaries by Age Group

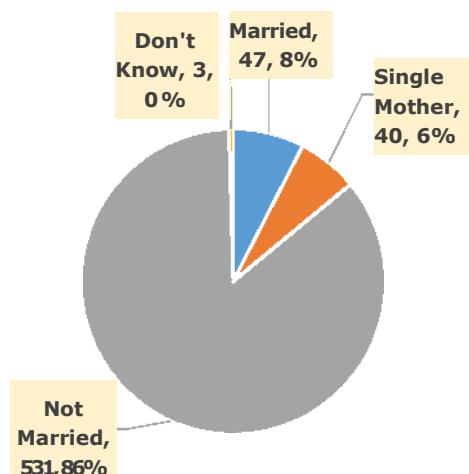

**By Barangay**

**Looking at the Barangays, Poblacion, and Putatan have** the highest number of beneficiaries, suggesting a greater **need or higher program uptake in these areas**. Other Barangays show varying levels of participation, **with Buli and Ayala Alabang having** the fewest beneficiaries. The gender distribution **within each Barangay is generally balanced**, although **some** slight differences exist. Overall, the free registration program appears **to significantly assist children from unmarried households, with its reach differing across the various communities within Muntinlupa**.

Figure 14.7. Bar Graph of 2024 Free Delayed Birth Registrations by Barangay

| Barangay       | Male | Female | Count | %      |
|----------------|------|--------|-------|--------|
| Tunasan        | 18   | 16     | 34    | 5.48   |
| Poblacion      | 101  | 88     | 189   | 30.43  |
| Putatan        | 60   | 57     | 117   | 18.84  |
| Bayanan        | 25   | 23     | 48    | 7.73   |
| Alabang        | 47   | 49     | 96    | 15.46  |
| Ayala Alabang  | 0    | 0      | 0     | 0.00   |
| Buli           | 12   | 2      | 14    | 2.25   |
| Cupang         | 29   | 20     | 49    | 7.89   |
| Sucat          | 25   | 43     | 68    | 10.95  |
| Non - Resident | 4    | 2      | 6     | 0.97   |
| Total          | 321  | 300    | 621   | 100.00 |

Table 24.0 Free Registration Beneficiaries by Barangay and Gender

**By Marital Status**

The **data shows** that the **vast majority of beneficiaries of free delayed birth registration in 2024 come from families where the parents are not married**. In contrast, **married parents and single mothers** represent smaller portions of the **total**. (See Figure 14.6. Pie Chart of 2024 Free Delayed Birth Registrations by Parents' Marital Status.)

Figure 14.6. Pie Chart of 2024 Free Delayed Birth Registrations by Parents' Marital Status

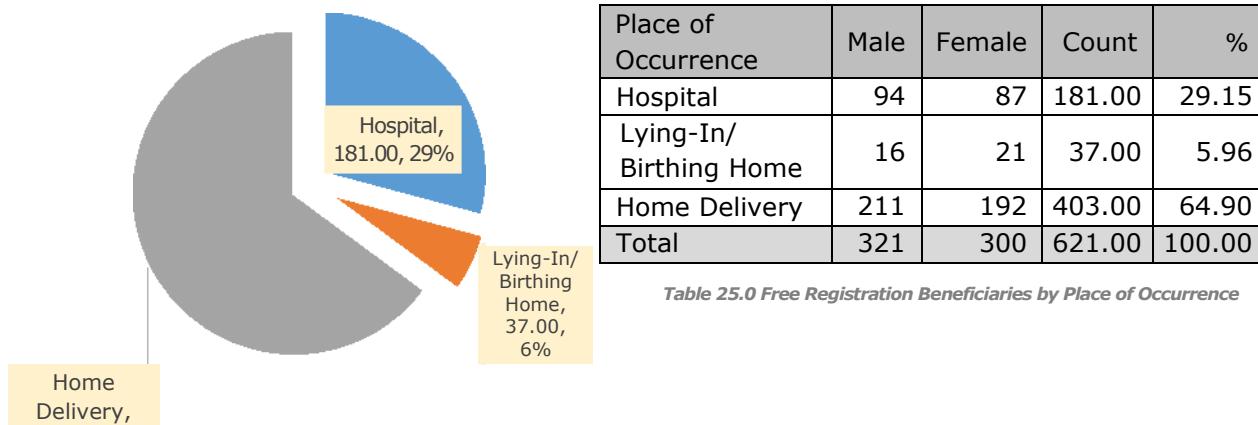

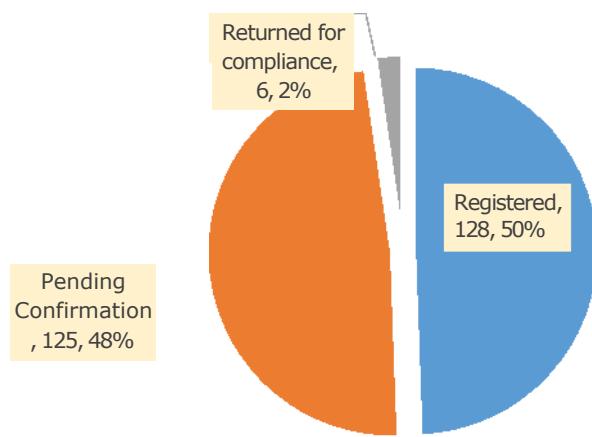

**By Place of Occurrence**

Figure 14.8. Pie Chart of 2024 Free Delayed Birth Registrations by Place of Occurrence

The data on where the births occurred for those who received free delayed registration indicates that the majority (65%, 403 registrations) were home deliveries. Hospital births accounted for a notable portion (29%, 181 registrations), while a smaller percentage (6%, 37 registrations) occurred in lying-in or birthing homes.

Overall, this information suggests that a significant number of individuals benefiting from free delayed registration were born at home. While hospital births also represent a substantial portion, births in lying-in or birthing homes were less common within this group.

**15. Out-of-Town Delayed Birth Registrations**

| Out-of-Town Delayed Registration | Count | %      |
|----------------------------------|-------|--------|
| Registered                       | 128   | 49.42  |
| Pending Confirmation             | 125   | 48.26  |
| Returned for compliance          | 6     | 2.32   |
| Total                            | 259   | 100.00 |

Table 26.0 Total Number of Out-Of-Town Delayed Birth Registrations

Registered Pending Confirmation Returned for compliance

Figure 15.1. Pie Chart of 2024 Out-Of-Town Delayed Registrations

Recent data on out-of-town delayed birth registrations reveal that approximately half (50%, or 128 cases) have been successfully registered. A slightly smaller share (48%, or 125 cases) remains pending confirmation, while a minimal number (2%, or 6 cases) were returned for compliance—indicating that additional requirements must be fulfilled before registration can proceed.

Overall, the majority of these applications are either completed or nearing final approval. The small proportion requiring further compliance suggests that Muntinlupa's processing of out-of-town delayed birth registrations is relatively efficient.

## DEATH REGISTRATION

Death is the permanent disappearance of all evidence of life at any time after live birth has taken place.

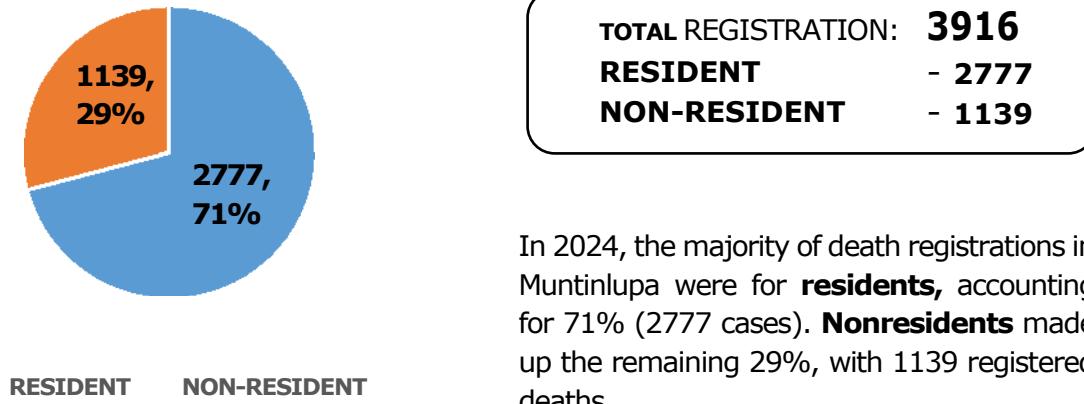

A Death certificate is an official document setting forth particulars relating to a dead person, including the name of the individual, date of birth, and the date of death.

- *Philippine Statistics Authority (PSA)*

**Timely Registration:**  
*Within 30 days from the date of death*

**Fees:**  
*Burial/Transfer permit – P50*

### 1. Total Number of Death Registrations By Residency

In 2024, the majority of death registrations in Muntinlupa were for **residents**, accounting for 71% (2777 cases). **Nonresidents** made up the remaining 29%, with 1139 registered deaths.

Figure 16.1. Pie Chart of 2024 Death Registrations by Residency

### 2020 - 2024 Death Registrations by Residency

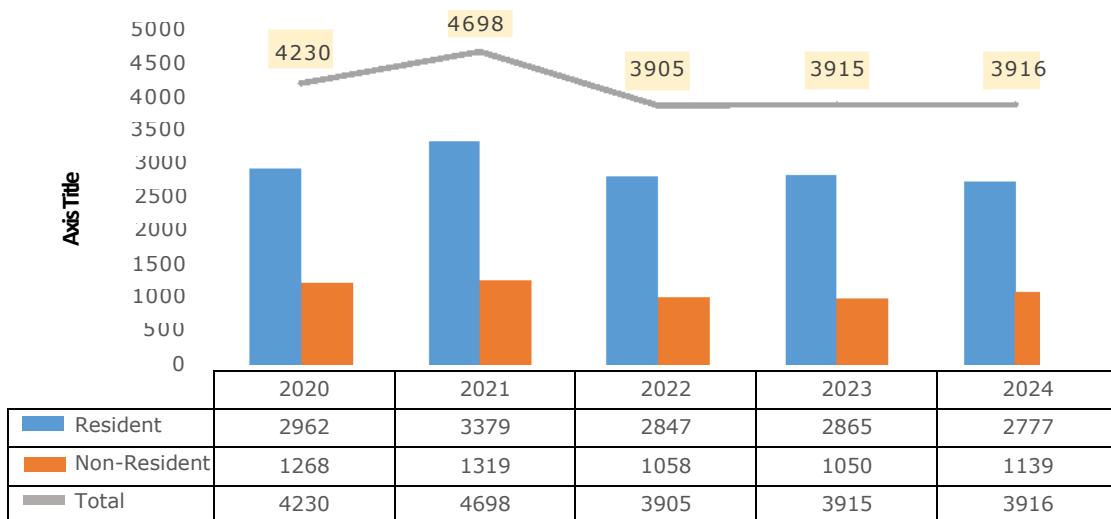

Figure 16.2. Bar Graph of 2020-2024 Death Registrations by Residency

The bar and line chart in Figure 16.2 shows the trend in death registrations by residency from 2020 to 2024. The numbers varied over the years, with a noticeable peak in 2021 at 4,698 deaths. Since then, there's been a gradual decline, reaching 3,916 in 2024.

## January - December Death Registrations by Residency

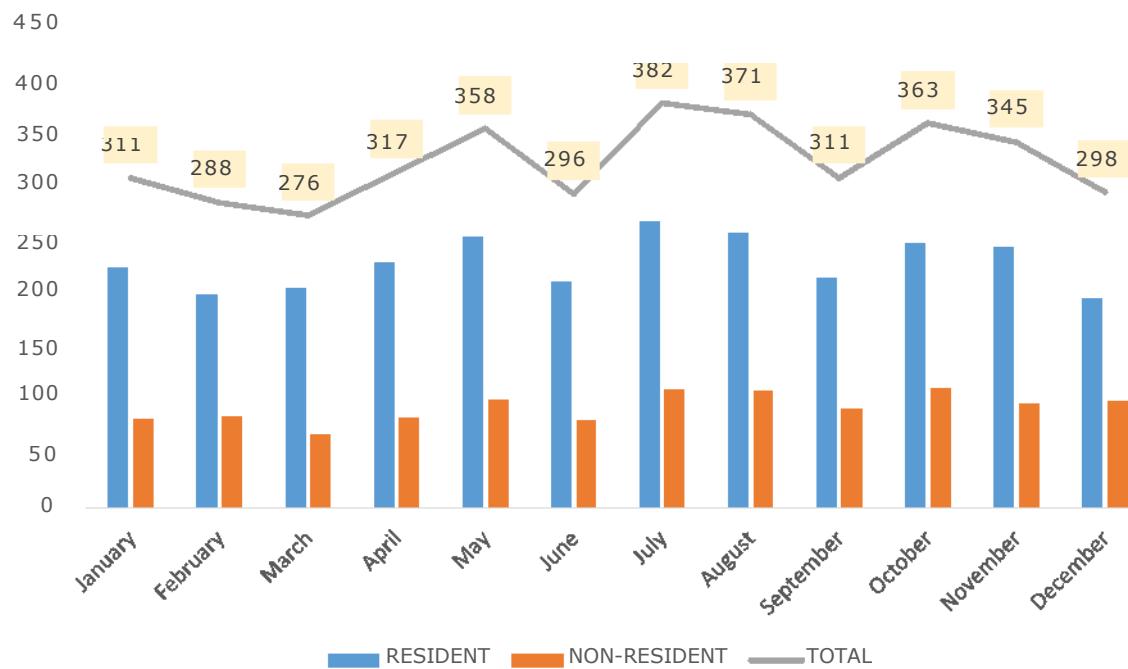

Figure 16.3. Bar Graph of 2024 Death Registrations by Residency and Month

| MONTH     | RESIDENT | NON-RESIDENT | TOTAL | %    |
|-----------|----------|--------------|-------|------|
| January   | 227      | 84           | 311   | 7.94 |
| February  | 202      | 86           | 288   | 7.35 |

| December  | 197      | 101          | 298   | 7.61 |
| TOTAL     | 2777     | 1139         | 3916  | 100  |

Table 27.0 Death Registrations by Place of Residency and Month

## 2. Death Registration by Gender

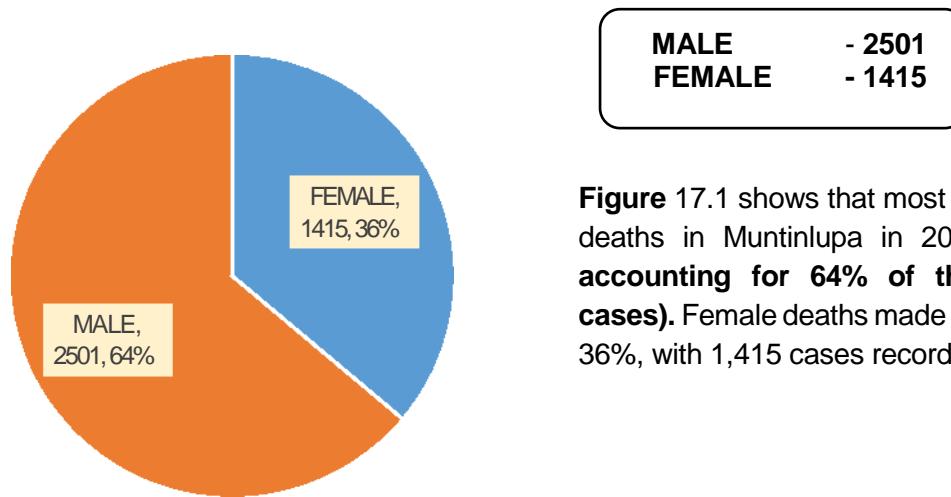

Figure 17.1. Pie Chart of 2024 Death Registrations by Gender

**Figure 17.1** shows that most of the registered deaths in Muntinlupa in 2024 **were male, accounting for 64% of the total (2,501 cases)**. Female deaths made up the remaining 36%, with 1,415 cases recorded.

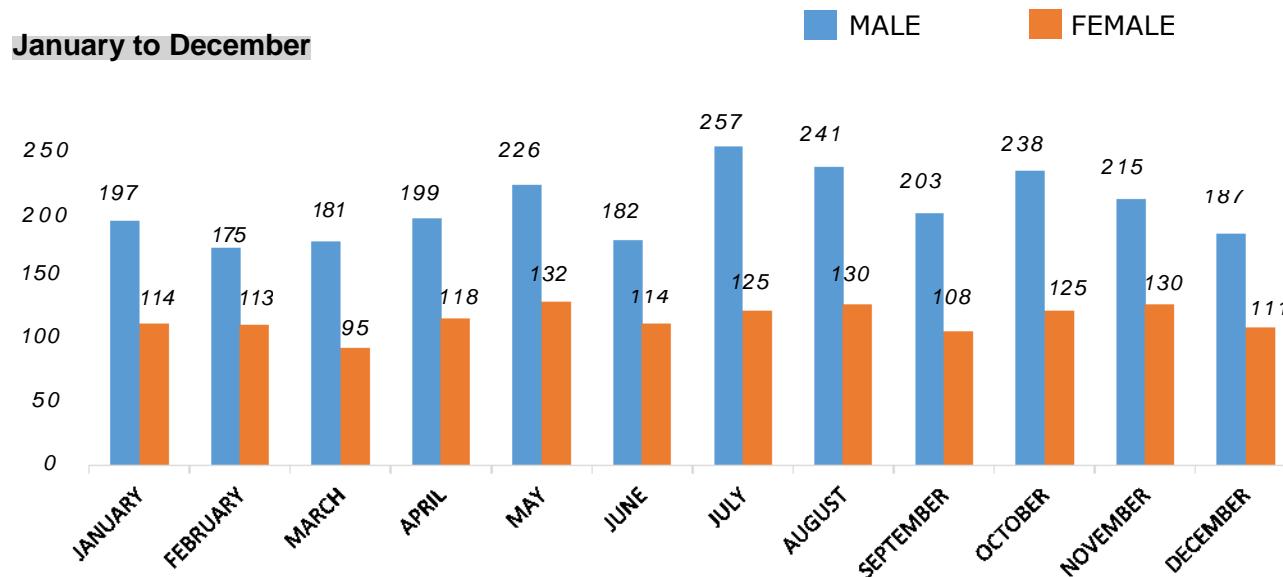

Figure 17.2. Bar Graph of 2024 Death Registrations by Gender and Month

Across **all** months, the number of male deaths consistently exceeded the number of female deaths.

- **The highest number of male deaths was recorded in July (257), followed by August (241) and October (238).**
- The highest number of female deaths occurred in July (125), followed by October and November (both 130).

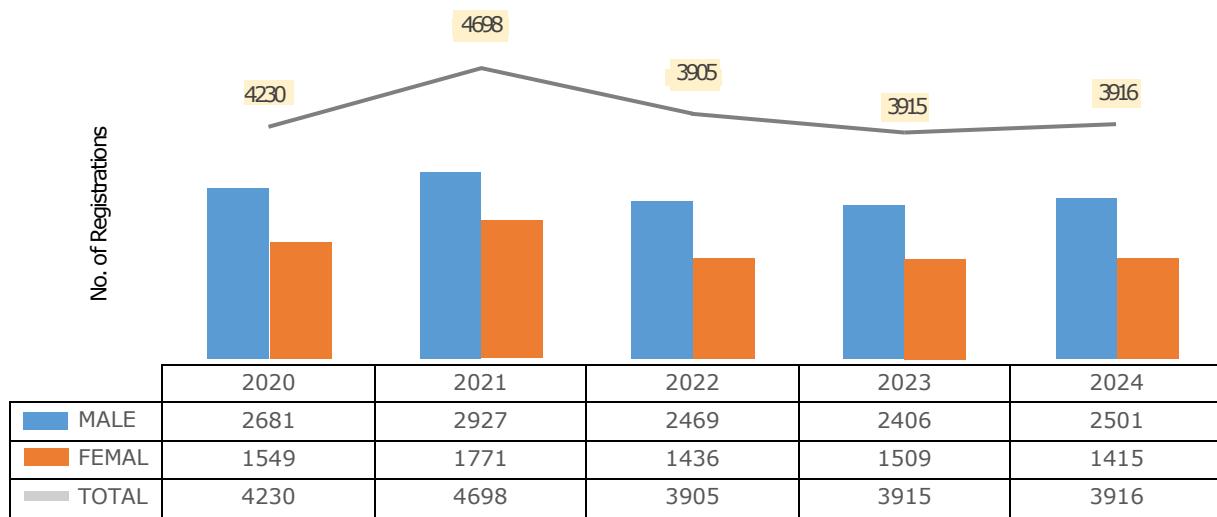

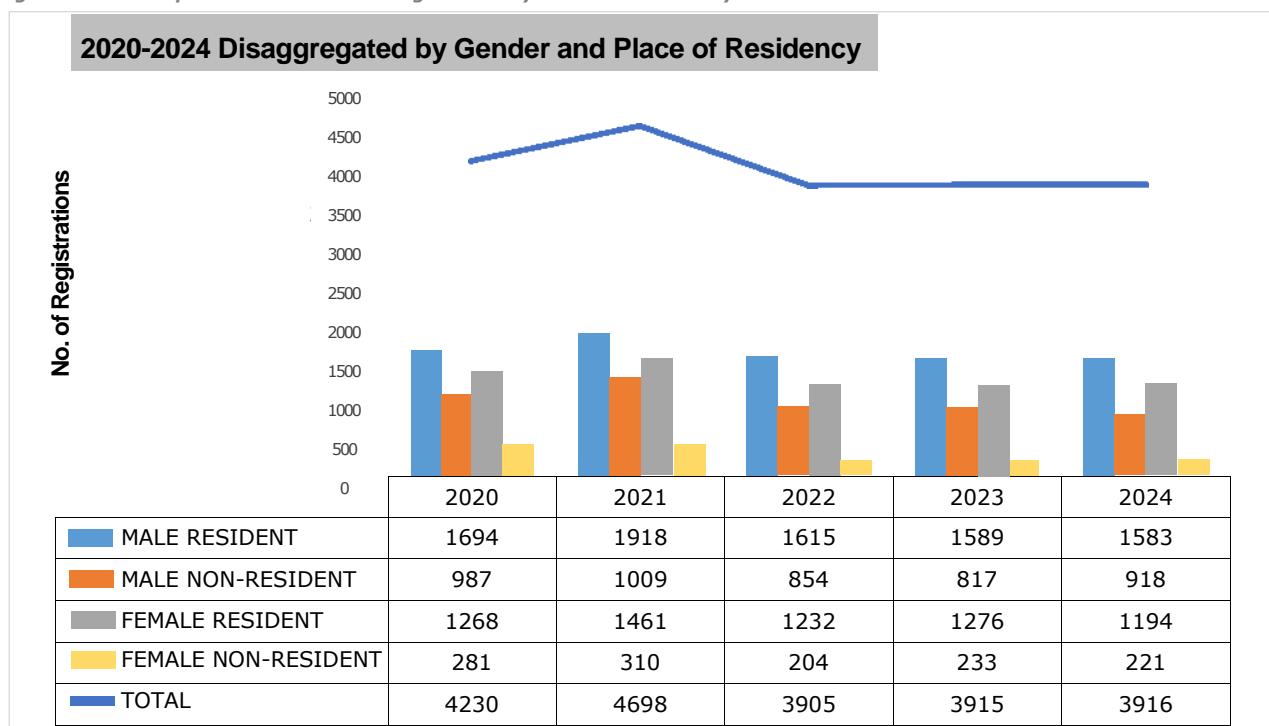

**2020-2024 Death Registrations disaggregated by gender**

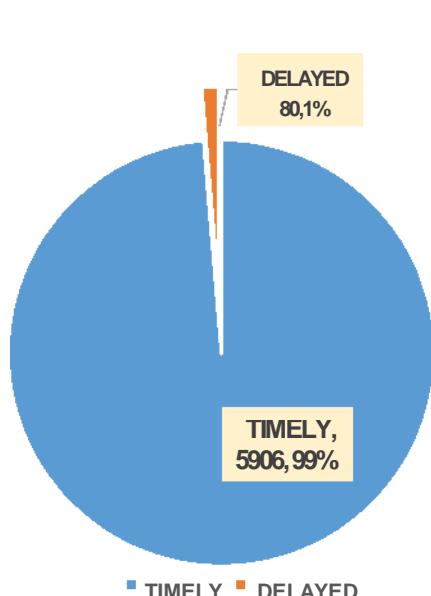

Figure 17.3. Bar Graph Of 2020-2024 Death Registrations by Gender

**The total number of death registrations fluctuated from 2020 to 2024, peaking at 4698 in 2021 and then generally decreasing to 3916 in 2024.**

Figure 17.4. Bar Graph Of 2020-2024 Death Registrations by Gender and Residency

### 3. Death Registration By Registration Status

Table 28.0 Death Registrations by Filing Status

Figure 18.1. Pie Chart of 2024 Death Registrations by Filing Status

In 2024, most death registrations in Muntinlupa were filed on time, with only a small number recorded beyond the allowed period.

#### Death Registrations disaggregated by Registration Status

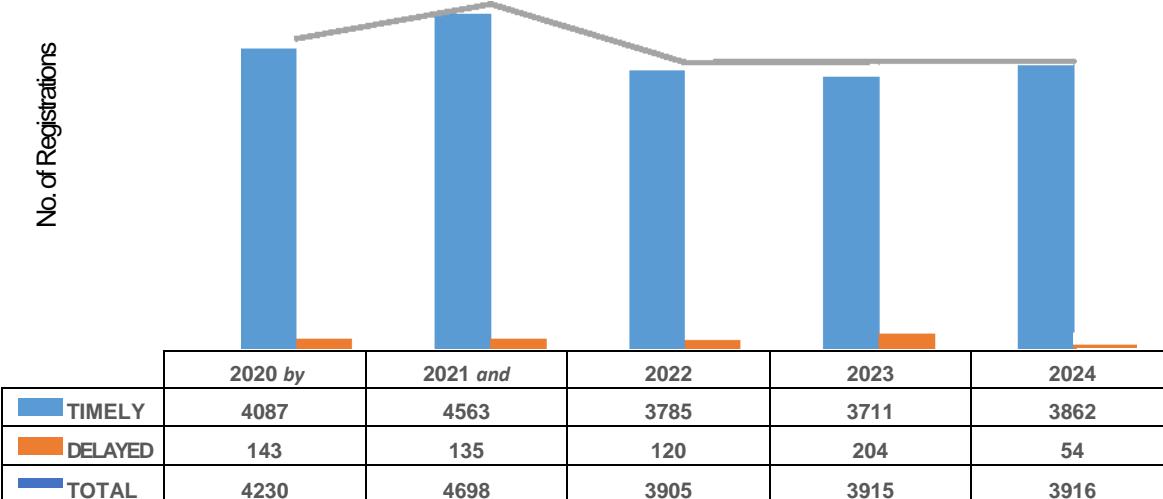

Figure 18.2. Bar Graph of 2020-2024 Death Registrations by Filing Status

#### 4. Death Registrations by Barangay

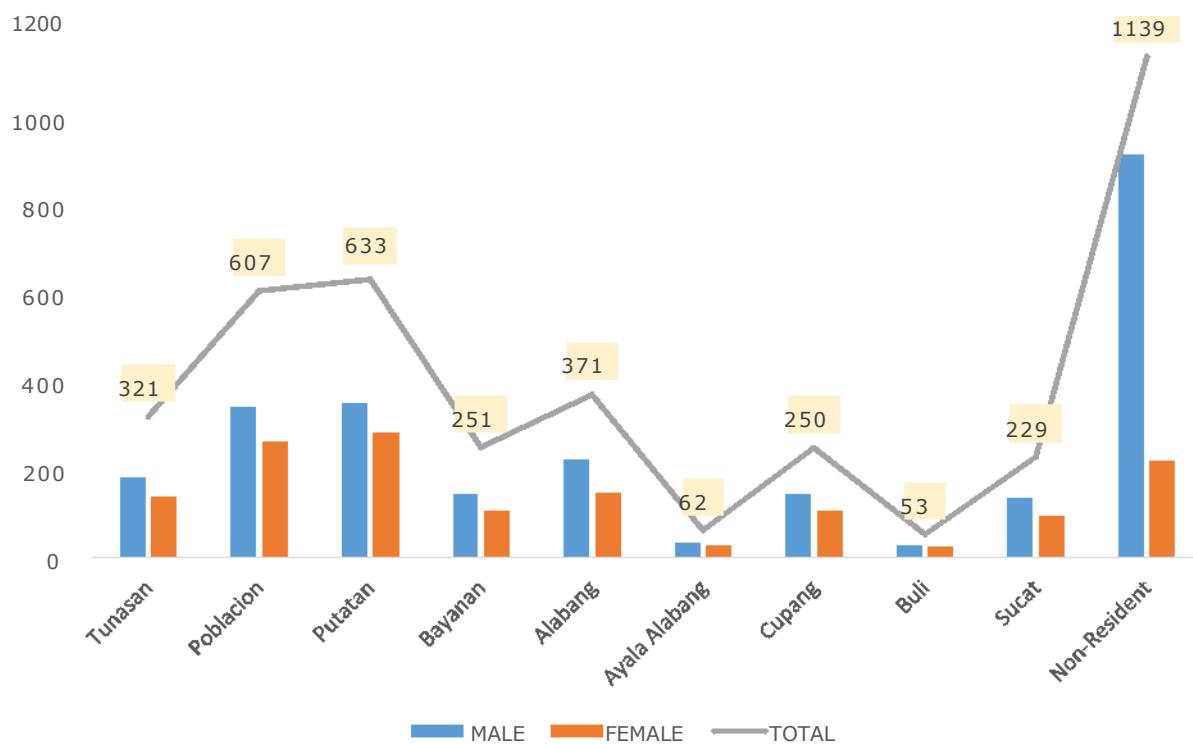

Figure 19.1. Bar Graph of 2024 Death Registrations by Barangay and Gender

Among the resident deaths, Putatan recorded the highest figure (633), followed by Poblacion (607) and Alabang (371). Tunasan, Bayanan, and Cupang showed moderate numbers of resident death registrations, while Sucat, Buli, and Ayala Alabang recorded the lowest. Across the majority of Barangays, there was a trend of slightly more male deaths than female deaths among residents.

| BARANGAY      | MALE | FEMALE | TOTAL | %      |
|---------------|------|--------|-------|--------|
| Tunasan       | 182  | 139    | 321   | 8.20   |
| Poblacion     | 342  | 265    | 607   | 15.50  |
| Putatan       | 350  | 283    | 633   | 16.16  |
| Bayanan       | 145  | 106    | 251   | 6.41   |
| Alabang       | 223  | 148    | 371   | 9.47   |
| Ayala Alabang | 34   | 28     | 62    | 1.58   |
| Cupang        | 144  | 106    | 250   | 6.38   |
| Buli          | 28   | 25     | 53    | 1.35   |
| Sucat         | 135  | 94     | 229   | 5.85   |
| Non-Resident  | 918  | 221    | 1139  | 29.09  |
| TOTAL         | 2501 | 1415   | 3916  | 100.00 |

Table 28.0 Death Registrations by Barangay and Gender

Figure 19.2. Bar Graph of 2020-2024 Death Registrations by Barangay

## 5. Death Registrations Disaggregated By Age Group, Sex

Looking at the population pyramid, a notable trend emerges: a higher proportion of male deaths appears to occur at younger ages compared to females. However, this pattern seems to reverse in the upper age brackets, where the data indicates a higher percentage of female deaths.

Figure 20.1. Population Pyramid of 2024 Death Registrations by Age Group and Sex

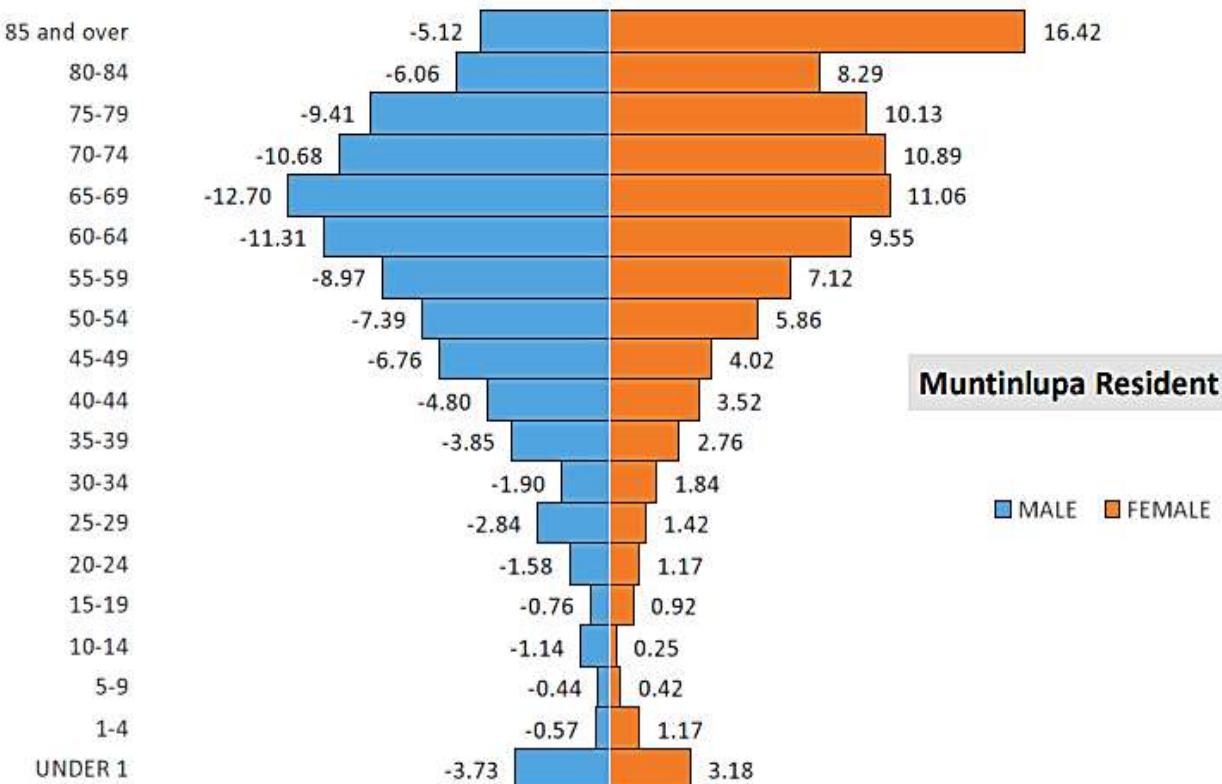

Figure 20.2. Population Pyramid of 2024 Death Registrations of Muntinlupa Residents by Age Group and Sex

**Detailed Breakdown**

| AGE GROUP   | TOTAL DEATH REGISTRATIONS |        |       | RESIDENT ONLY |        |       |
|-------------|---------------------------|--------|-------|---------------|--------|-------|
|             | MALE                      | FEMALE | TOTAL | MALE          | FEMALE | TOTAL |
| 85 and over | 109                       | 231    | 340   | 81            | 196    | 277   |
| 80-84       | 119                       | 112    | 231   | 96            | 99     | 195   |
| 75-79       | 199                       | 145    | 344   | 149           | 121    | 270   |

## 9. Death Registration Disaggregated By Place of Cemetery

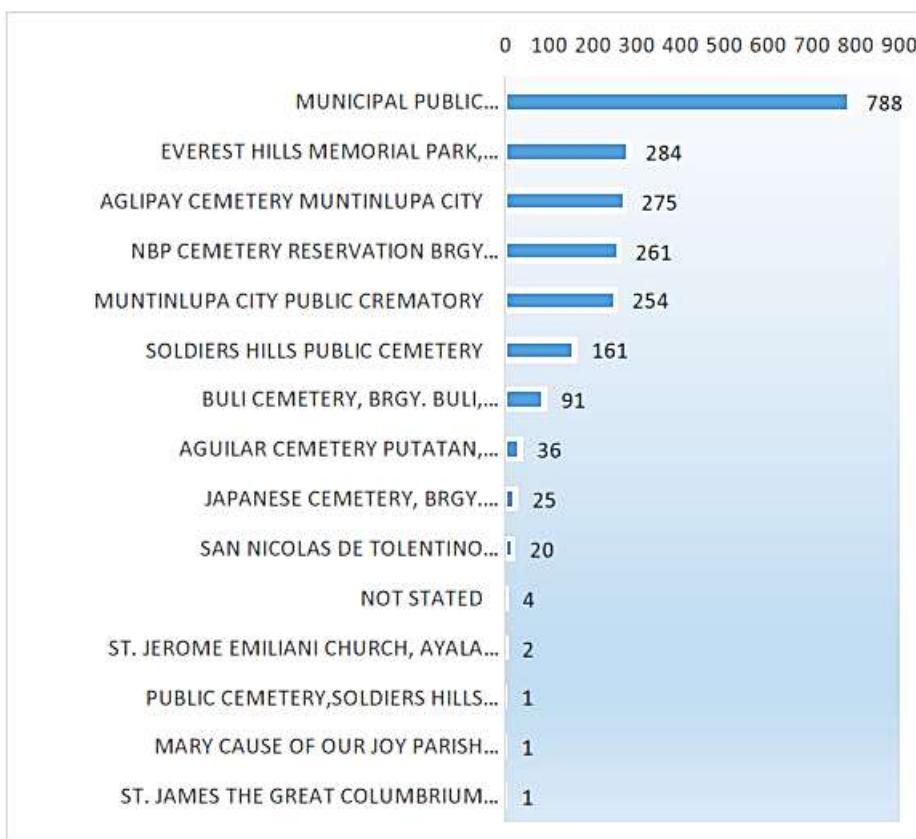

Figure 24.1. Bar Graph of 2024 Death Registrations by Place of Cemetery

**Figure 24.1 shows that the Municipal Public Cemetery in Soldiers Hills Putatan is the most commonly used burial site in Muntinlupa. Other memorial parks and cemeteries are also used, but they account for significantly fewer registered deaths. The data also includes the Muntinlupa City Public Crematory, indicating that cremation remains a viable option for final disposition.**

## MARRIAGE REGISTRATION

Marriage is a special contract of permanent union between a man and a woman entered into in accordance with law for the establishment of conjugal and family life. It is the foundation of the family and an inviolable social institution whose nature, consequence, and incidents are governed by law and not subject to stipulation, except that marriage settlements may fix the property relations during the marriage within the limits provided by this code.

- *Executive Order No. 209 also known as THE FAMILY CODE OF THE PHILIPPINES*

**Essential requisite:**

- Legal Capacity of the contracting parties who must be a male and a female;*
- Consent is freely given in the presence of the solemnizing officer*

**Formal requisite:**

- Authority of the solemnizing officer*
- Valid Marriage license except in the cases specially provided in the Family Code*
- A marriage ceremony takes place with the appearance of the contracting parties before the solemnizing officer and their declaration that they take each other as husband and wife in the presence of not less than two witnesses of legal age.*

Timely Registration:

**A. w/ Marriage License** - within 15 days from the date of marriage  
Fee: Free

**B. w/ Article 34 (Cohabitation)** - within 30 days  
Fee: P100

## 1. Marriage Registration disaggregated by Month

**TOTAL MARRIAGES: 1655**

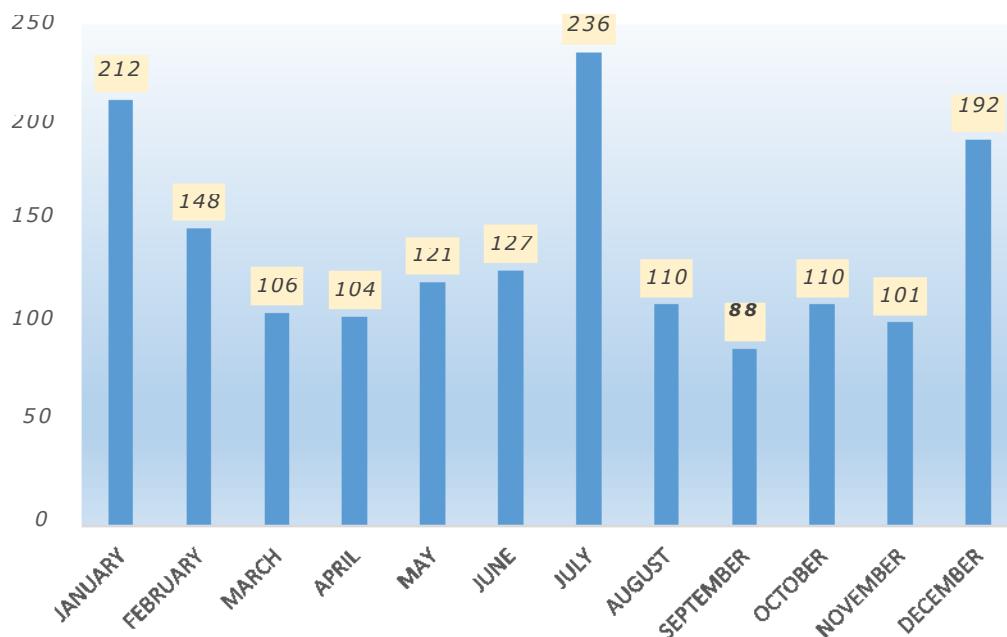

Figure 26.1. Bar Graph of 2024 Marriage Registrations

In 2024, marriage registrations in Muntinlupa followed a clear seasonal pattern. **July was the most popular month for weddings, with 236 registrations**, followed by January (212) and December (192)—possibly due to the festive holiday atmosphere. In contrast,

September and April saw the fewest marriages, with only 88 and 104 registrations, respectively. The rest of the year—February, March, May, June, August, October, and November—had relatively steady numbers, ranging from 101 to 148. These trends likely reflect a mix of favorable weather, cultural traditions, and the convenience of holiday breaks in the Philippines.

## Love and Commitment in Muntinlupa City: Marriage Registrations (2020-2024)

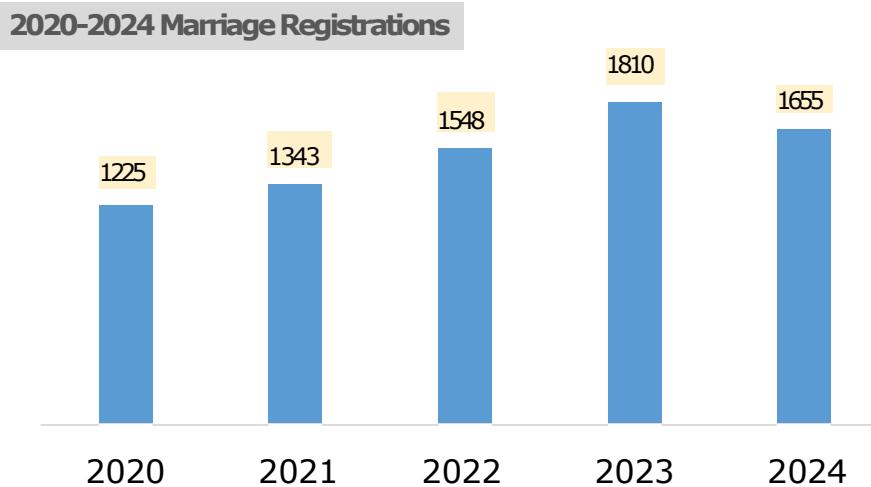

Figure 26.1. Bar Graph of 2024 Marriage Registrations

2024, the number dipped slightly to 1,655, but overall, the five-year trend reflects a growing interest in formalizing unions. These figures highlight how marriage continues to be a valued milestone for many couples in the city.

Marriage registration data from 2020 to 2024 shows a steady upward trend among couples in Muntinlupa. In 2020, 1,225 marriages were registered, rising slightly to 1,343 in 2021. A more notable increase followed in 2022 with 1,548 registrations, peaking in 2023 at 1,810. In

## 2. Marriage Registrations Disaggregated by Registration Status

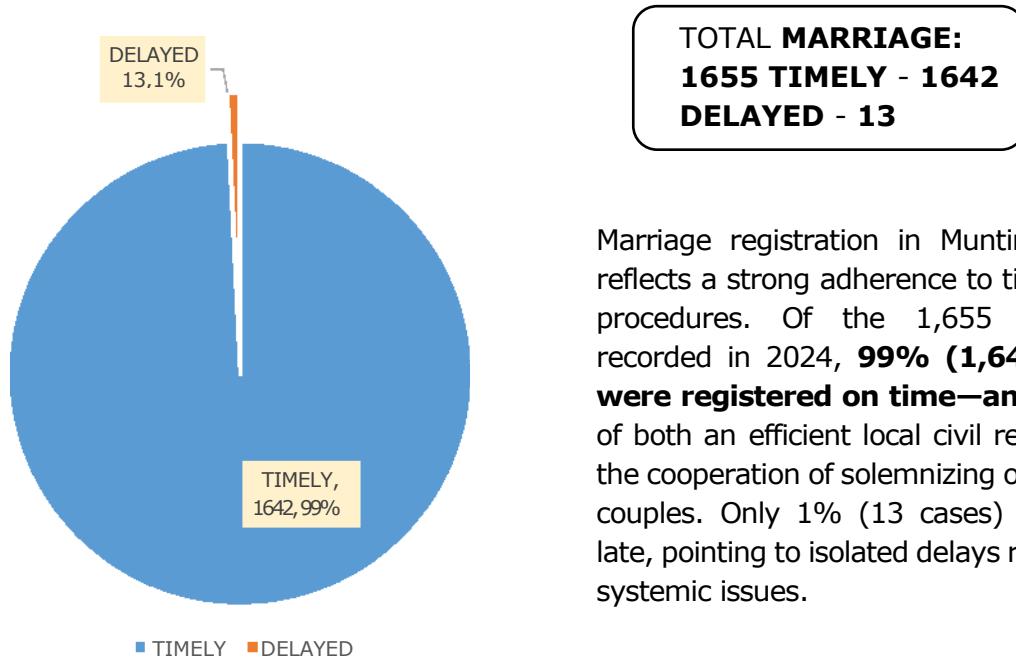

Figure 27.1. Pie Chart of 2024 Marriage Registrations by Filing Status

Marriage registration in Muntinlupa City reflects a strong adherence to timely legal procedures. Of the 1,655 marriages recorded in 2024, **99% (1,642 cases)** were registered on time—an indication of both an efficient local civil registry and the cooperation of solemnizing officers and couples. Only 1% (13 cases) were filed late, pointing to isolated delays rather than systemic issues.

Overall, the data highlights the effectiveness of Muntinlupa's marriage registration system in ensuring marriages are promptly and properly documented.

### 2020-2024 Marriage Registrations by Registration Status

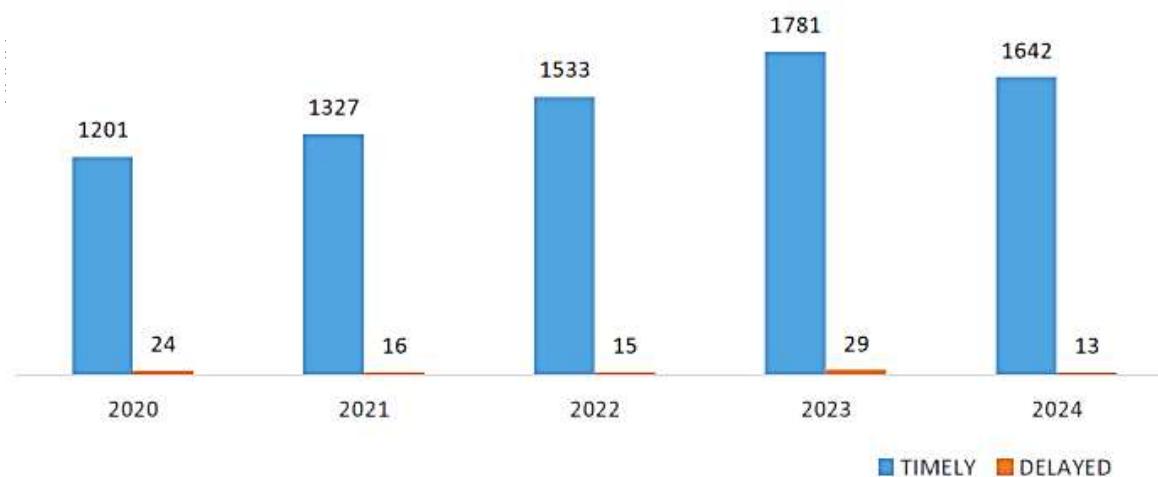

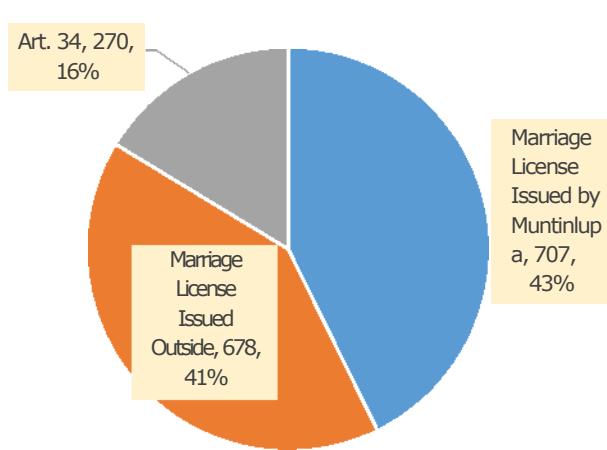

Figure 27.2. Bar Graph of 2020-2024 Marriage Registrations by Filing Status

### 3. Marriage Registrations Disaggregated by Solemnizing Officer Certification

Marriage registration data in Muntinlupa City shows a diverse mix of couples getting married in the city. **Of the 1,655 registered marriages in 2024, 43% (707 couples) obtained their marriage license in Muntinlupa**, while 41% (678) secured theirs from other localities. The remaining 16% (270) were registered under Article 34 of the Family Code, which allows for marriage without a license under specific conditions.

Figure 28.1. Pie Chart of 2024 Marriage Registrations by Certification of Solemnizing Officer

These figures highlight Muntinlupa's role as a wedding venue not only for residents but also for couples from outside the city.

| CERTIFICATION OF SOLEMNIZING          | Count       | %             |
|---------------------------------------|-------------|---------------|
| Marriage License Issued by Muntinlupa | 707         | 42.72         |
| Marriage License Issued Outside       | 678         | 40.97         |
| Article 34                            | 270         | 16.31         |
| <b>TOTAL</b>                          | <b>1655</b> | <b>100.00</b> |

## 4. Marriage Registration by Place of Wedding

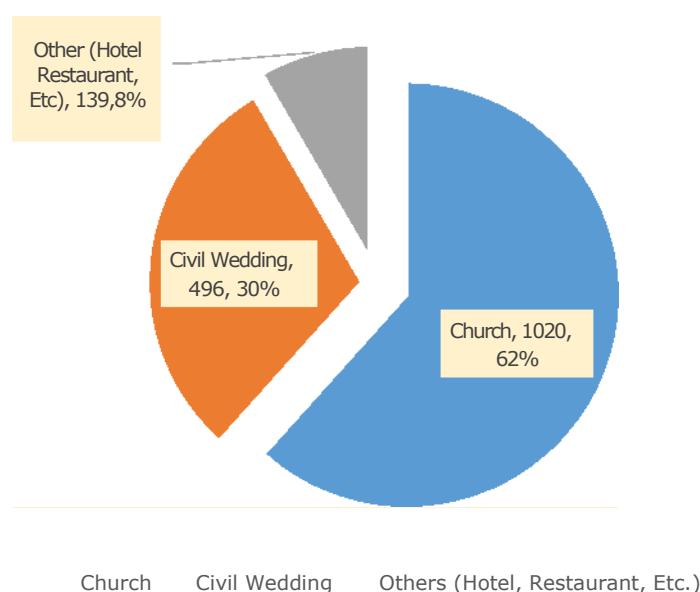

Figure 29.1. Pie Chart of 2024 Marriage Registrations by Place of Ceremony

**TOTAL MARRIAGE:**  
**1655 Church - 1020**  
**Civil Wedding - 496**  
**Others - 139**

As shown in **Figure 29.1**, marriage registration data in Muntinlupa City reveals that most weddings in 2024 took place in **churches**, accounting for **62%** of the 1,655 recorded marriages. **Civil weddings followed at 30%**, while the remaining 8% were held in other venues such as hotels and restaurants. These figures reflect a strong preference for church

ceremonies, with civil weddings also remaining a common choice and a smaller share of couples opting for more unique or non-traditional settings.

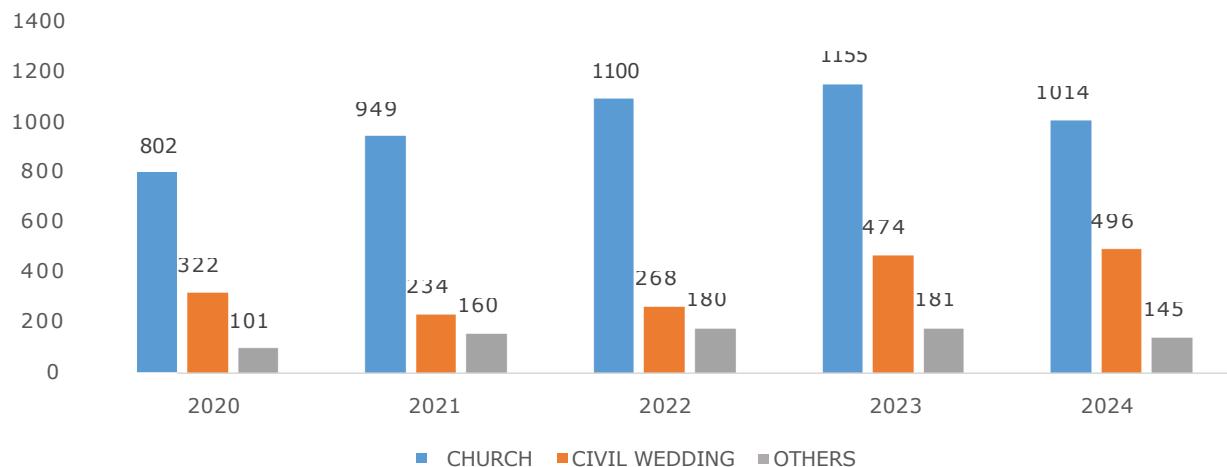

**2020-2024 Marriage Registration disaggregated by Place of Marriage**

Figure 29.2. Bar Graph of 2020-2024 Marriage Registrations by Place of Ceremony

## TOP 10 Church Wedding Place in Muntinlupa

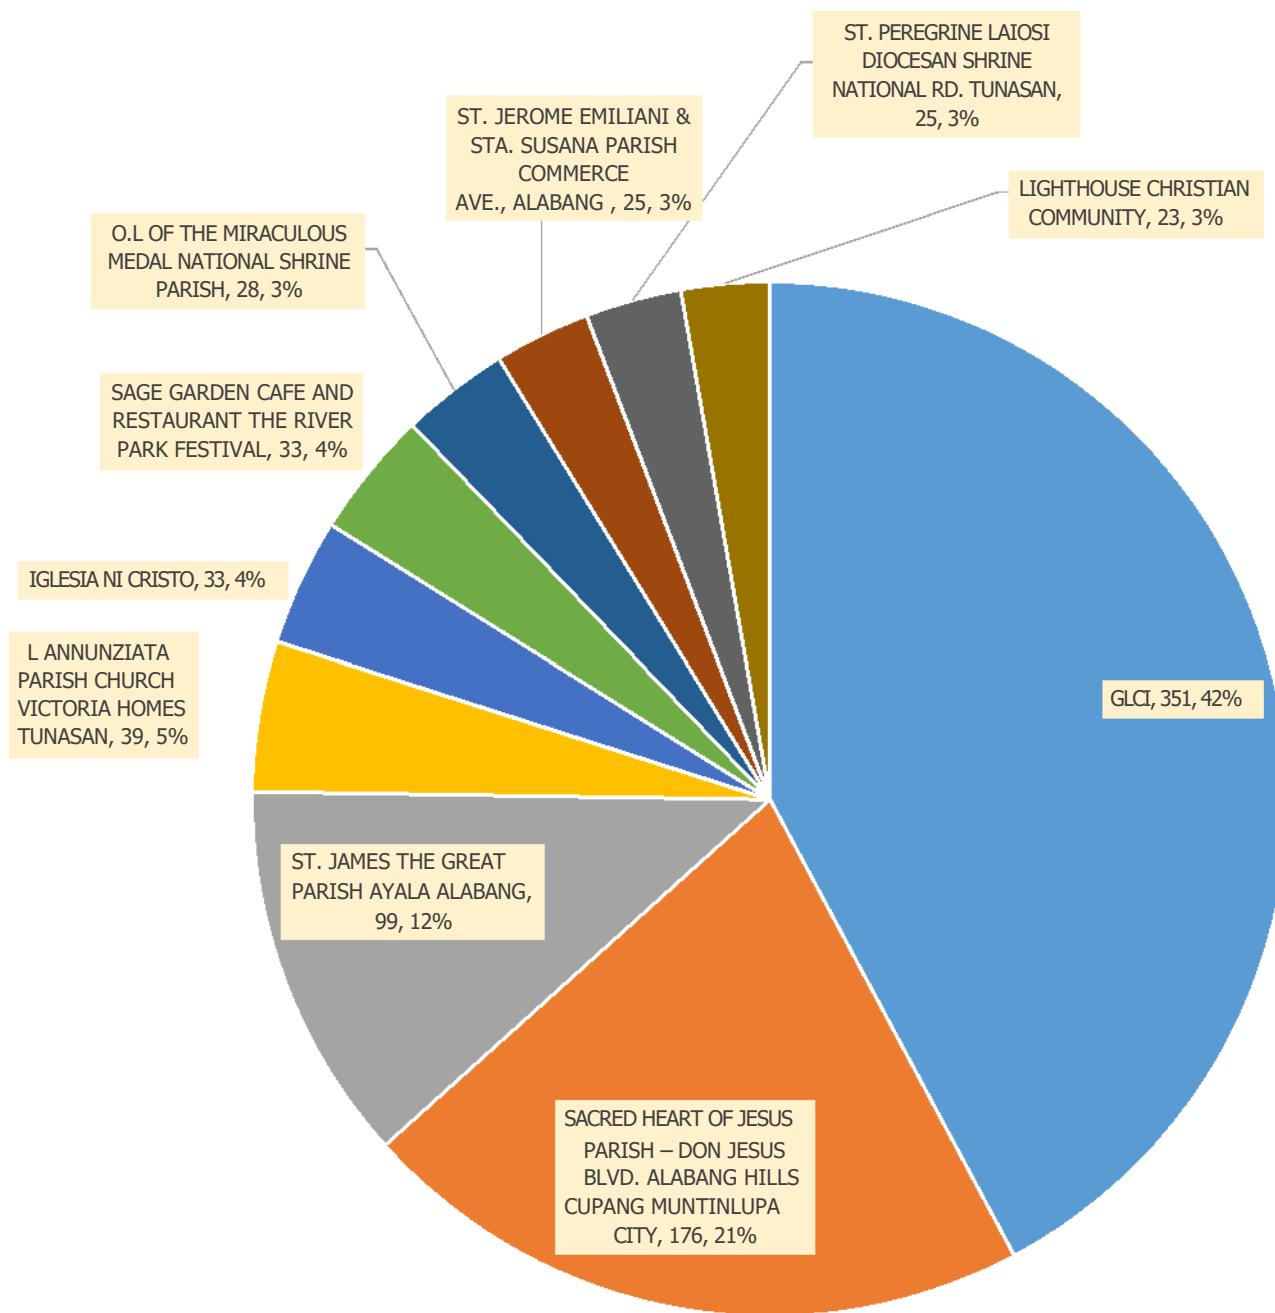

Figure 30.1. Pie Chart of 2024 Top 10 Church Wedding Place

In Muntinlupa City, where church weddings make up 62% of all registered marriages, GLCI stands out as the most popular venue, **hosting 42%** of these ceremonies. Other commonly chosen churches include the **Sacred Heart of Jesus Parish (21%)** and **St. James the Great Parish in Ayala Alabang (12%)**. Several other churches, each accounting for 3% to 5% of church weddings, also remain popular choices among couples. This data shows a clear preference for specific religious venues when it comes to tying the knot in Muntinlupa.

## 5. Percent Distribution of Marriage Registration Disaggregated by Age Group and Sex

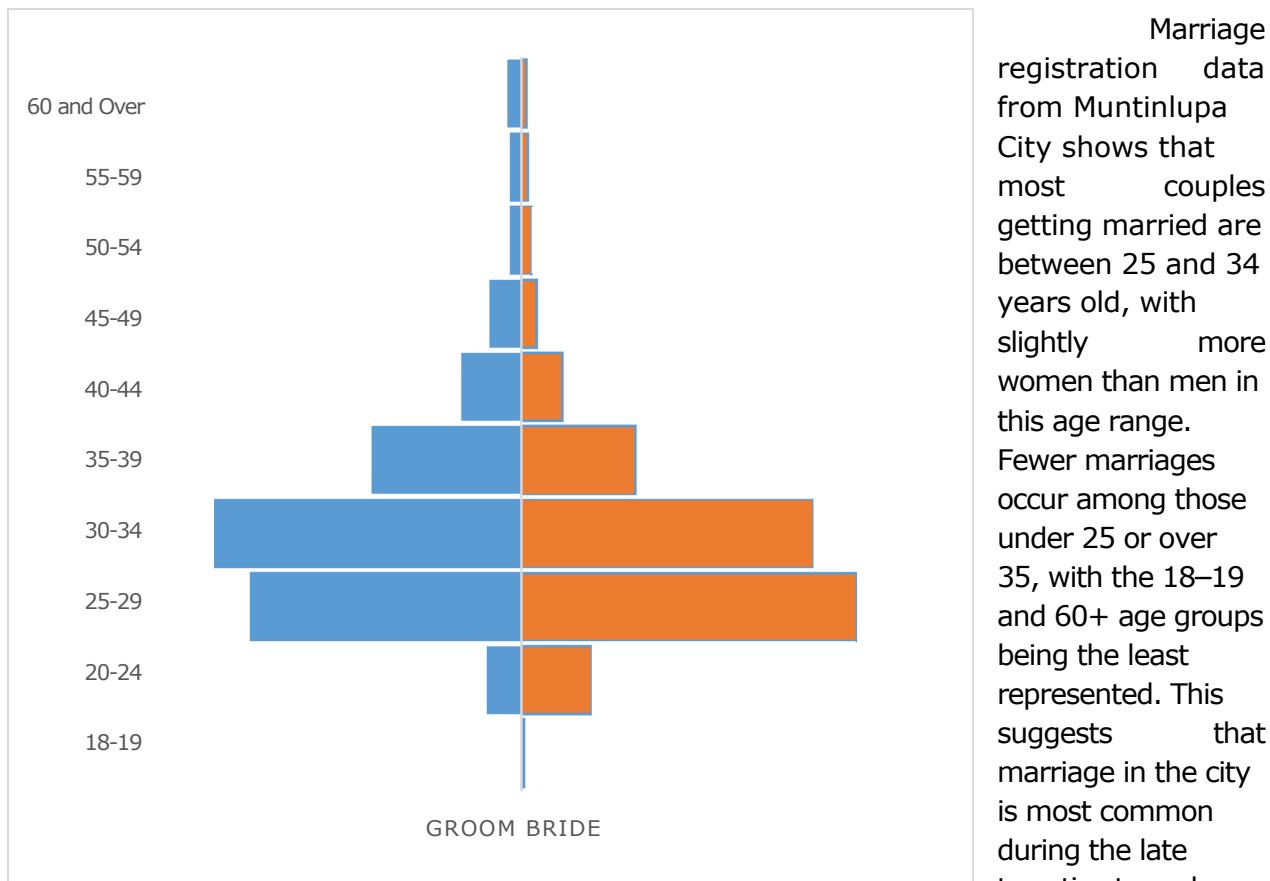

Figure 30.1. Population Pyramid of 2024 Marriage Registrations by Age Group and Sex

Marriage registration data from Muntinlupa City shows that most couples getting married are between 25 and 34 years old, with slightly more women than men in this age range. Fewer marriages occur among those under 25 or over 35, with the 18-19 and 60+ age groups being the least represented. This suggests that marriage in the city is most common during the late twenties to early thirties.

Table 38.0 Marriage Registrations Disaggregated by Age Group of the Bride in relation to the Groom

**Marriage data from Muntinlupa** City shows that **most couples are close in age, with many marrying partners from the same or neighboring age groups.** There's a slight trend of brides marrying slightly **older grooms.** **Marriages involving large age differences are relatively rare.** **The 25-29 age group records the highest number of unions, with most couples marrying within that same age range.**

## MARRIAGE LICENSE APPLICATION

Is one of the formal requisites for Marriage between a man and a woman. It is a document that authorizes a person and his/her soon-to-be spouse to marry anywhere in the Philippines. It is needed to be secured before getting married. A marriage License will be issued after 10 days' notice of posting after the day of application.

**Fees:**

## 1. 2020-2024 Marriage License Applications

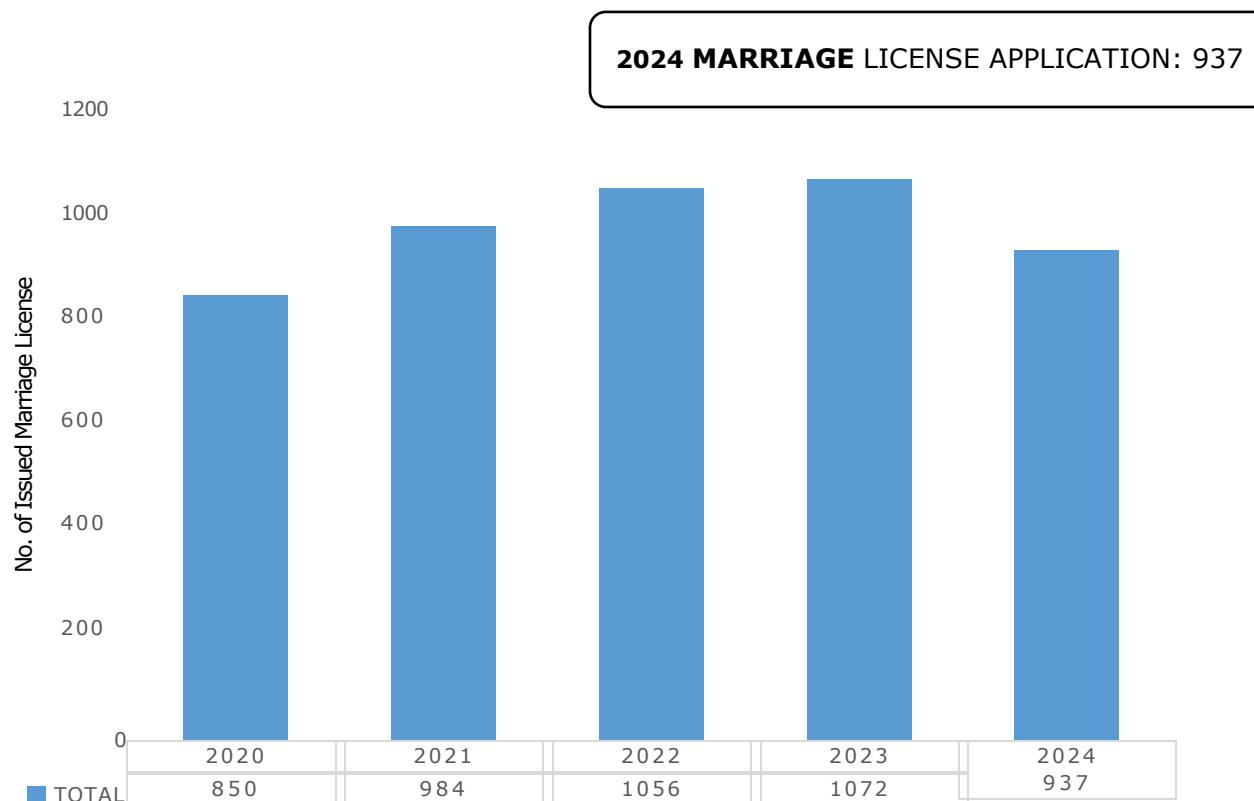

Figure 31.1. Bar Graph of 2020-2024 of Marriage License Applications

As shown in **Figure 31.1**, marriage license applications in Muntinlupa City rose steadily from 2020 to 2023, before dipping in 2024. The city recorded 850 applications in 2020, increasing to 984 in 2021, 1,056 in 2022, and peaking at 1,072 in 2023. In 2024, however, the number **dropped to 937**. This five-year trend reflects a period of consistent growth, followed by a slight decline in applications.

## 2. Disaggregated by Month

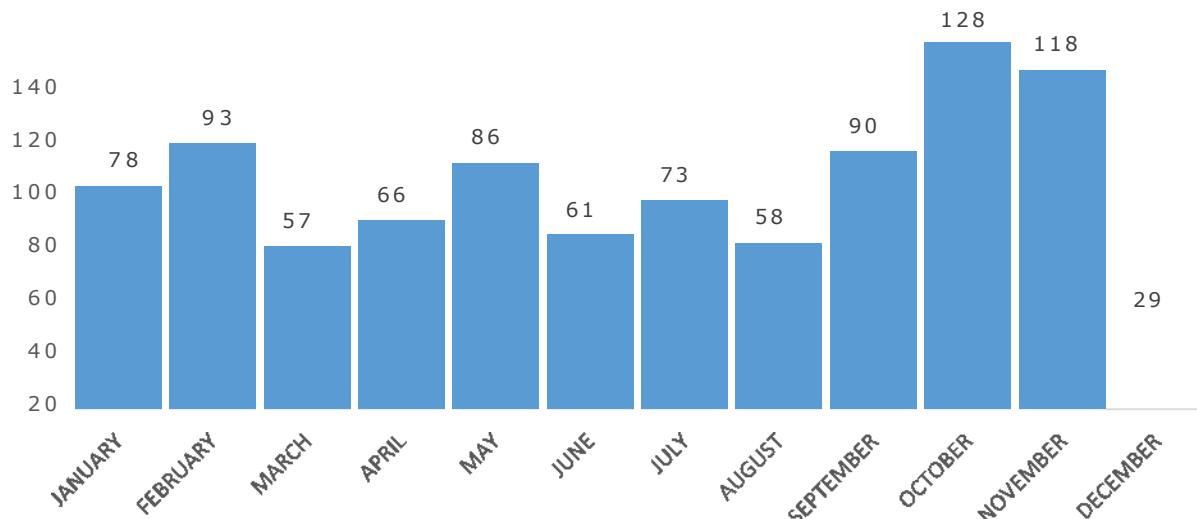

Figure 31.2. Bar Graph of 2024 of Marriage License Applications

In 2024, marriage license applications in Muntinlupa City showed a clear seasonal pattern. The busiest months were October (128 applications, 13.66%) and November (118, 12.59%), followed by February (93, 9.93%) and September (90, 9.61%). In contrast, December had the fewest applications at just 29 (3.09%), with March (57, 6.08%) and August (58, 6.19%) also seeing relatively low numbers. This trend suggests that many couples prefer to apply for marriage licenses in the later part of the year, especially in October and November, while interest tends to dip in December.

| MONTH     | COUNT | %      |
|-----------|-------|--------|
| JANUARY   | 78    | 8.32   |
| FEBRUARY  | 93    | 9.93   |
| MARCH     | 57    | 6.08   |
| APRIL     | 66    | 7.04   |
| MAY       | 86    | 9.18   |
| JUNE      | 61    | 6.51   |
| JULY      | 73    | 7.79   |
| AUGUST    | 58    | 6.19   |
| SEPTEMBER | 90    | 9.61   |
| OCTOBER   | 128   | 13.66  |
| NOVEMBER  | 118   | 12.59  |
| DECEMBER  | 29    | 3.09   |
| TOTAL     | 937   | 100.00 |

Table 39.0 Marriage License Applications Disaggregated by Month

**R.A. 9048: PETITIONS FOR CLERICAL ERROR (CCE) AND CHANGE OF NAME (CFN), CORRECTION ON DATE AND MONTH OF BIRTH, AND GENDER**

No entry in a civil register shall be changed or corrected without a judicial order, except for clerical or typographical errors and change of first name or nickname, the day and month in the date of birth or sex of a person where it is patently clear that there was a clerical or typographical error or mistake in the entry, which can be corrected or changed by the concerned city or municipal civil registrar or consul general in accordance with the provisions of this Act and its implementing rules and regulations."

**- Section 1. of R.A. 9048**

Exception: No correction must involve the *change of nationality, age, or status of the petitioner.*

Fees:

**CCE (R.A.9048)**

Fee - P1000

Misc. Fee – P500

**CFN, CCE (R.A.10172) – Date and month of Birth and Gender**

Fee - P3000

Misc. Fee – P1000

**Migrant petition**

CCE (R.A.9048) – P500

CCE (R.A.10172) & CFN - P1000

### 1. Petitions for R.A. 9048 and 10172 (Correction of Clerical Error)

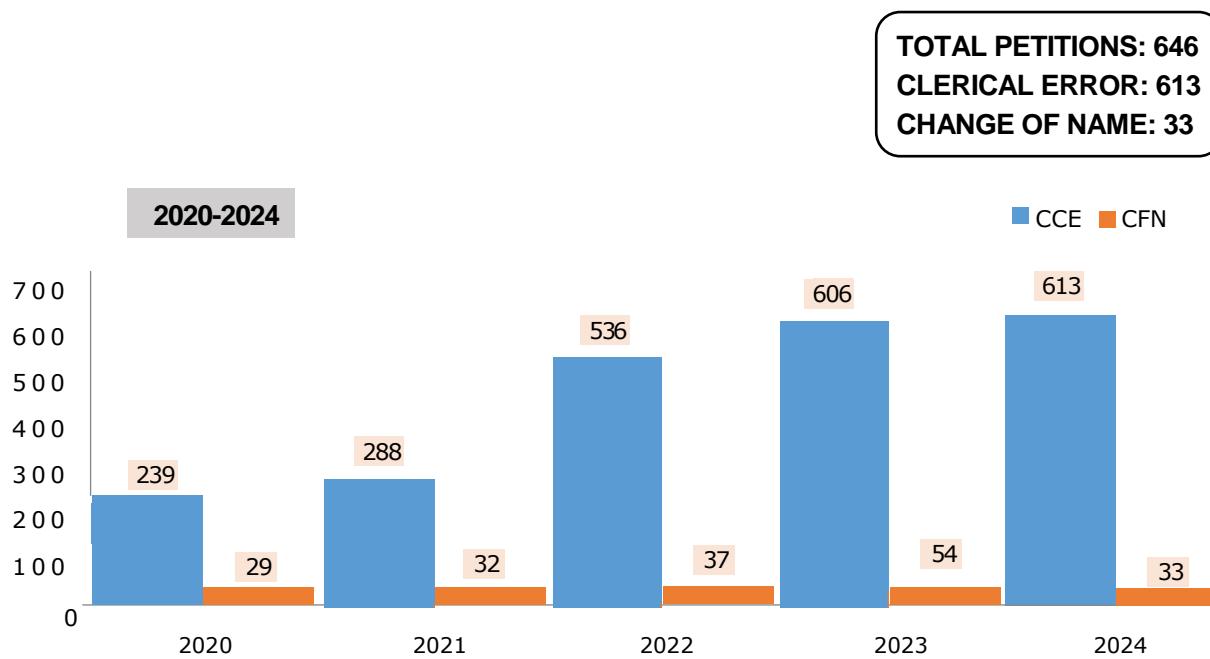

Figure 32.1. Bar Graph of 2020-2024 Total Number of R.A.9048 and R.A.10172 Petitions

From 2020 to 2024, Muntinlupa City recorded a steady increase in petitions for the **Correction of Clerical Error (CCE)**, rising from **239 in 2020 to 613 in 2024**. This upward trend points to a growing need to amend inaccuracies in civil registry documents. In contrast, **Change of Name (CFN)** petitions remained relatively low and inconsistent, peaking at **54 in 2023** before declining to **33 in 2024**. Over the five years, a total of **675 petitions** were processed, with **CCE filings making up the vast majority**. Figure 32.1 illustrates these trends, highlighting the sharp rise in CCE cases compared to the more erratic pattern of CFN filings.

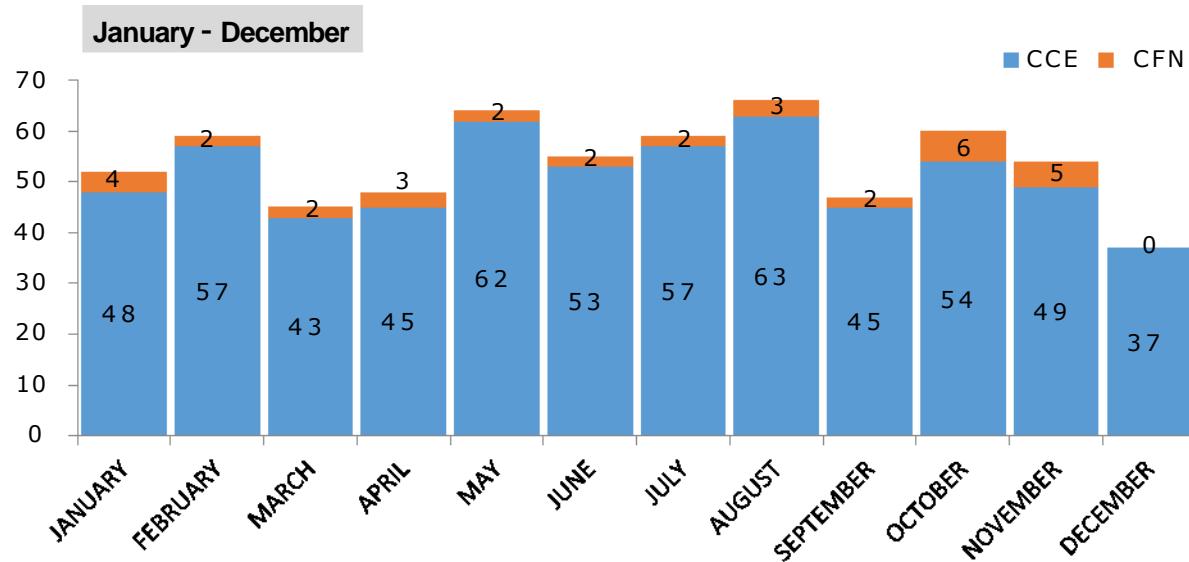

Figure 32.2. Bar Graph of 2024 Total Number of R.A.9048 and R.A.10172 Petitions

## REGISTRATION OF COURT DECREES

**The Civil Registrar shall accept all registrable documents and judicial decrees/ orders affecting the civil status of persons.**

## 1. Registration of Judicial Decrees/ Court Orders

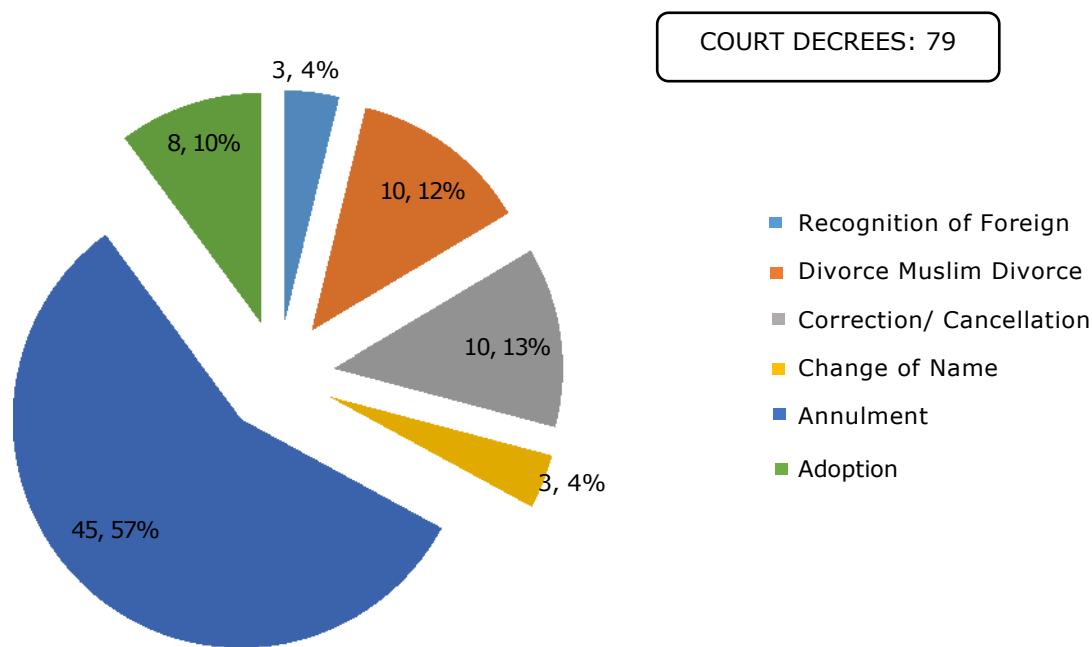

Figure 33.1. Bar Graph of 2024 Total Number of Judicial Decrees/ Court Orders

In 2024 alone, Muntinlupa City registered a total of **79 Judicial Decrees and Court Orders**. The most common were **Annulment cases**, making up 57% of the total, or **45 cases**. **Muslim Divorce** and **Correction or Cancellation** followed, with **10 cases each (13%)**. **Change of Name** came next with **8 cases (10%)**, while **Recognition of Foreign Divorce** and **Adoption** were the least common, with only **3 cases each (4%)**.

As shown in **Figure 33.1**, annulment cases dominated the court orders filed in 2024—possibly pointing to a steady demand for local legal remedies for marriage dissolution.

**January - December**

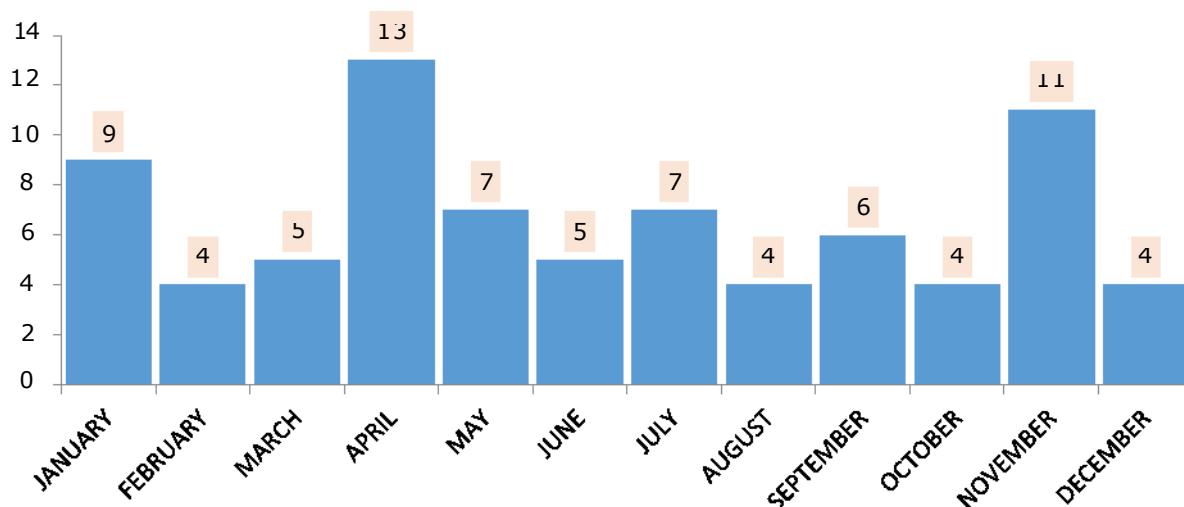

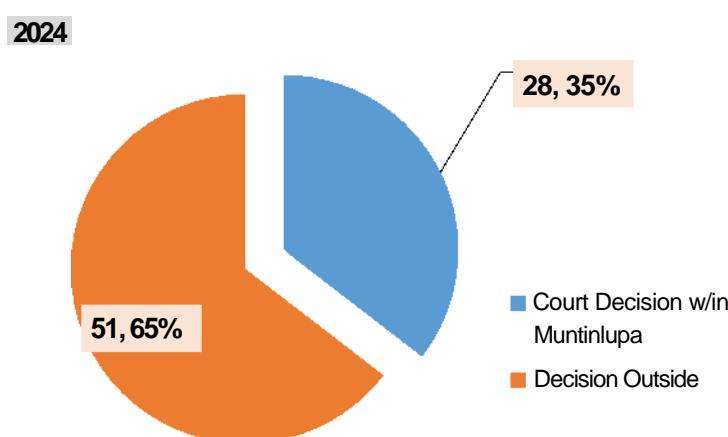

Figure 33.2. 2024 Bar Graph of 2024 Total Number of Judicial Decrees/ Court Orders by Month

## 2. Disaggregated by the Origin of Judicial Decision

In 2024, most of the judicial decisions registered in Muntinlupa City—65% or 51 cases—actually came from courts outside the city. Only 28 decisions (35%) originated from within Muntinlupa itself.

As shown in Figure 32.3, this suggests that many residents are bringing in court rulings from other jurisdictions, perhaps due to residence changes or legal proceedings

Figure 33.2. 2024 Bar Graph of 2024 Total Number of Judicial Decrees/ Court Orders by Month

handled elsewhere.

### 2020-2024 Total Number of Judicial Decrees/ Court Orders by Origin

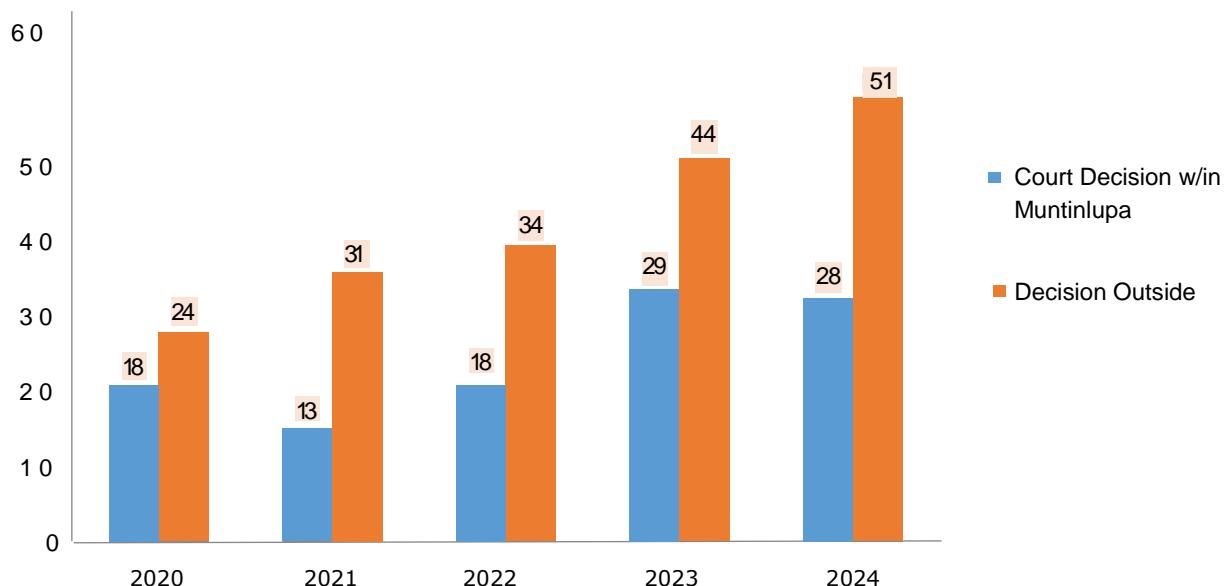

Figure 33.3. 2024 Bar Graph of 2024 Total Number of Judicial Decrees/ Court Orders by Month

From 2020 to 2024, more judicial decisions registered in Muntinlupa City came from outside the city than from local courts. While locally issued decisions varied year to year—dropping to 13 in 2021 and peaking at 29 in 2023—those from outside Muntinlupa steadily climbed, starting at 24 in 2020 and reaching 51 in 2024.

As shown in Figure 33.3, this trend points to a growing number of court rulings from other areas being brought in for registration, possibly due to residents undergoing legal proceedings outside the city.

## REGISTRATION OF LEGAL INSTRUMENTS (L.I.)

AS A GENERAL rule, all legal instruments concerning civil registry documents must be registered in the civil registry of the place where they were executed. The following, however, may be registered in the following places:

- Affidavit of Reappearance – where the parties to the subsequent marriage are residing;
- Marriage Settlement – where the marriage was recorded
- Admission of Paternity; and
- Acknowledgement; Legitimation; Voluntary Emancipation of Minor; Parental Authorization or Ratification of Artificial Insemination – where the birth of the child was recorded

Not falling under the aforementioned exceptions are the following registrable instruments:

- Acknowledgement
- Acquisition of citizenship
- Certificate of legal capacity of contract marriage
- Option to elect Philippine citizenship
- Partition and distribution of properties of spouses and delivery of the children's legitimate; and
- Waiver of rights interests of absolute community.

All legal instruments executed abroad shall be registered in the **civil registry office of Manila**.

### Fees:

|  |        |
|--|--------|
| Admission/ Acknowledgement                 | — P120 |
| Affidavit to Use the Surname of the Father | — P200 |
| Pre-Nuptial Agreement                      | — P200 |
| Legitimation                               | — P150 |
| Other L.I.                                 | — P200 |

### 1. Registration of Legal Instruments

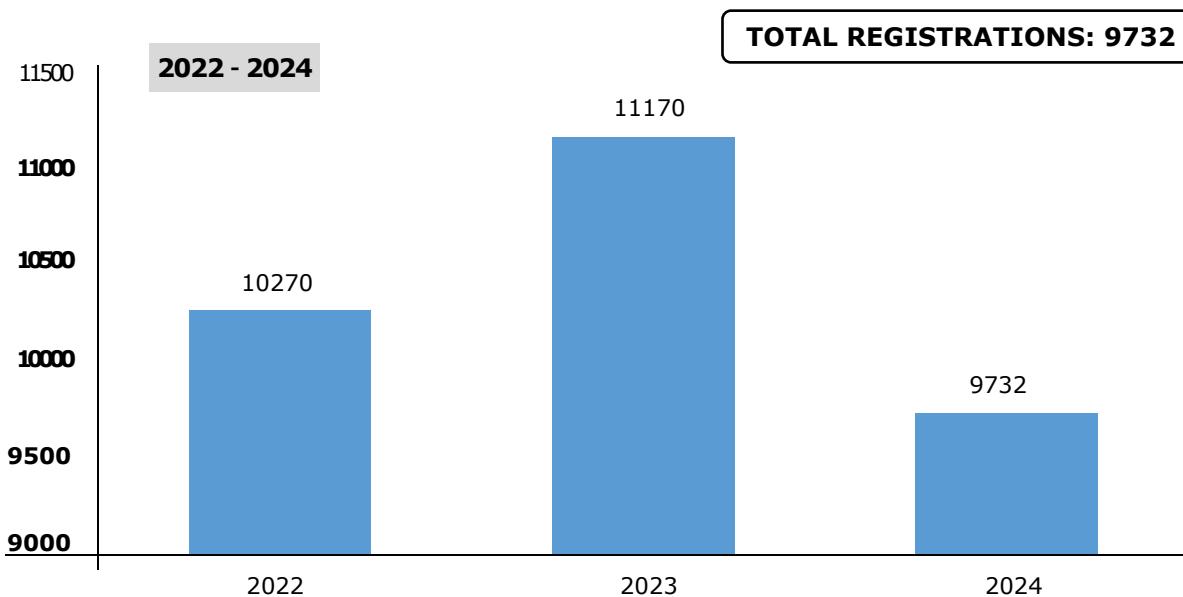

Figure 34.1. Bar Graph of 2022-2024 Total Number of Registered Legal Instruments

**Figure 34.1** shows how the **number of legal** instruments registered **in Muntinlupa City changed** from **2022 to 2024**. There was a noticeable increase in 2023, with registrations rising from **10,270** in 2022 to **11,170**. But in 2024, the numbers dipped to **9,732**, **even** lower than they were two years earlier.

So while there was some growth at first, the drop in 2024 suggests a possible slowdown in registrations that year.

#### Detailed Breakdown

| Legal Instruments   | Count       | %             |
|---|-------------|---------------|
| Admission of Paternity (During timely registration of BC)                 | 4709        | 48.39         |
| Acknowledgment  | 23          | 0.24          |
| Admission of Paternity (After BC was registered)                          | 64          | 0.66          |
| Affidavit to Use the Surname of Father (During timely registration of BC) | 4690        | 48.19         |
| Affidavit to Use the Surname of Father (after BC was registered)          | 66          | 0.68          |
| Legitimation  | 114         | 1.17          |
| Pre-Nuptial Agreement   | 13          | 0.13          |
| Supplemental Birth  | 51          | 0.52          |
| Supplemental Death  | 0           | 0.00          |
| Supplemental Marriage   | 2           | 0.02          |
| <b>Total</b>  | <b>9732</b> | <b>100.00</b> |

Table 40.0 List of Registered Legal Instruments

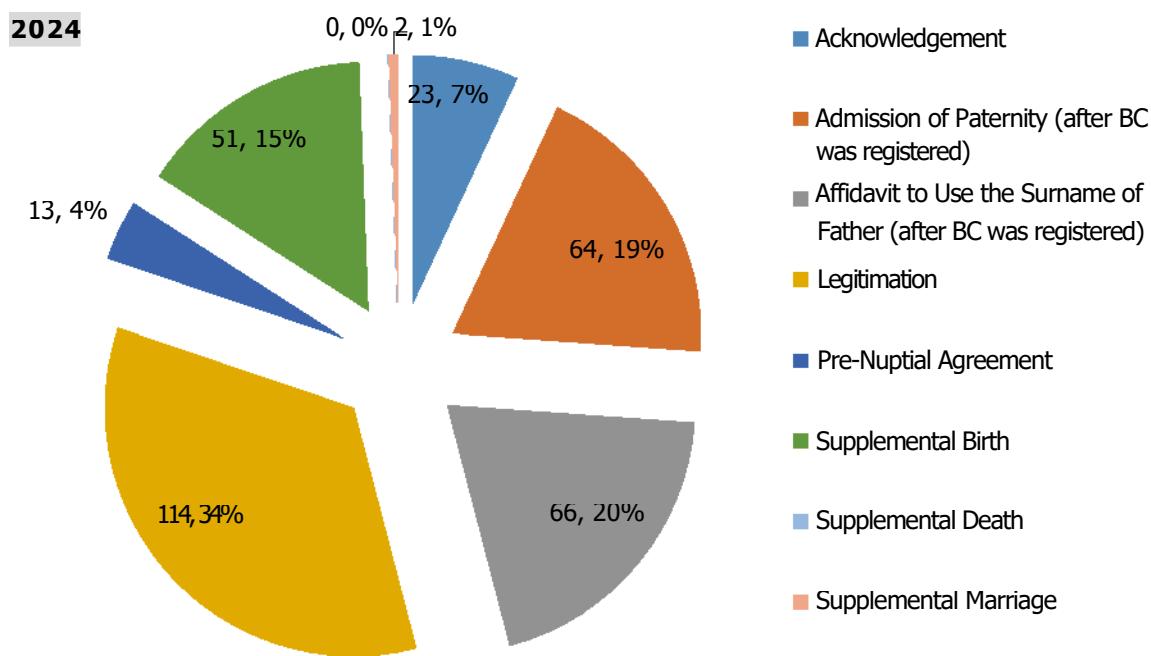

**Legal Instrument Excluding the Timely Registration of Birth Certificate**

Figure 34.2. Pie Chart of 2024 Total Number of Registered Legal Instruments

In 2024, various legal instruments were registered in **Muntinlupa City**, excluding timely birth registrations.

**Legitimation** made up the largest share, with **114 cases** or **34%** of the total. Next were **Affidavits to Use the Surname of the Father** and **Admissions of Paternity**—filed after birth registration—accounting for **66 cases (20%)** and **64 cases (19%)**, respectively.

**Supplemental Birth registrations** followed with **51 cases (15%)**, while **Acknowledgements** and **Pre-Nuptial Agreements** made up smaller portions, at **7% (23 cases)** and **4% (13 cases)**.

As for the rest, only **2 Supplemental Death** entries and **no Supplemental Marriage** registrations were recorded.

Overall, most legal instruments filed in 2024 were related to correcting or completing birth records after registration—particularly through legitimation and paternal acknowledgment.

**Detailed Breakdown:**

| Legal Instruments  | 2022         | 2023         | 2024        |
|--|--------------|--------------|-------------|
| During Registration  |              |              |             |
| Admission of Paternity (During registration of BC)                 | 5039         | 5494         | 4709        |
| Affidavit to Use the Surname of Father (During registration of BC) | 4965         | 5397         | 4690        |
| Acknowledgment   | 22           | 3            | 23          |
| Admission of Paternity (After BC was registered)                   | 45           | 63           | 64          |
| Affidavit to Use the Surname of Father (After BC was registered)   | 37           | 45           | 66          |
| Legitimation   | 116          | 111          | 114         |
| Pre-Nuptial Agreement  | 17           | 10           | 13          |

## REGISTRATION OF FOUNDLING

### Registration of Foundling

Foundling registration is the official recording of a child found abandoned by unknown parents. This crucial process establishes the child's legal identity and ensures their right to protection and care under the law. Foundling registration data for 2024, along with historical figures from 2020 onwards, are presented below.

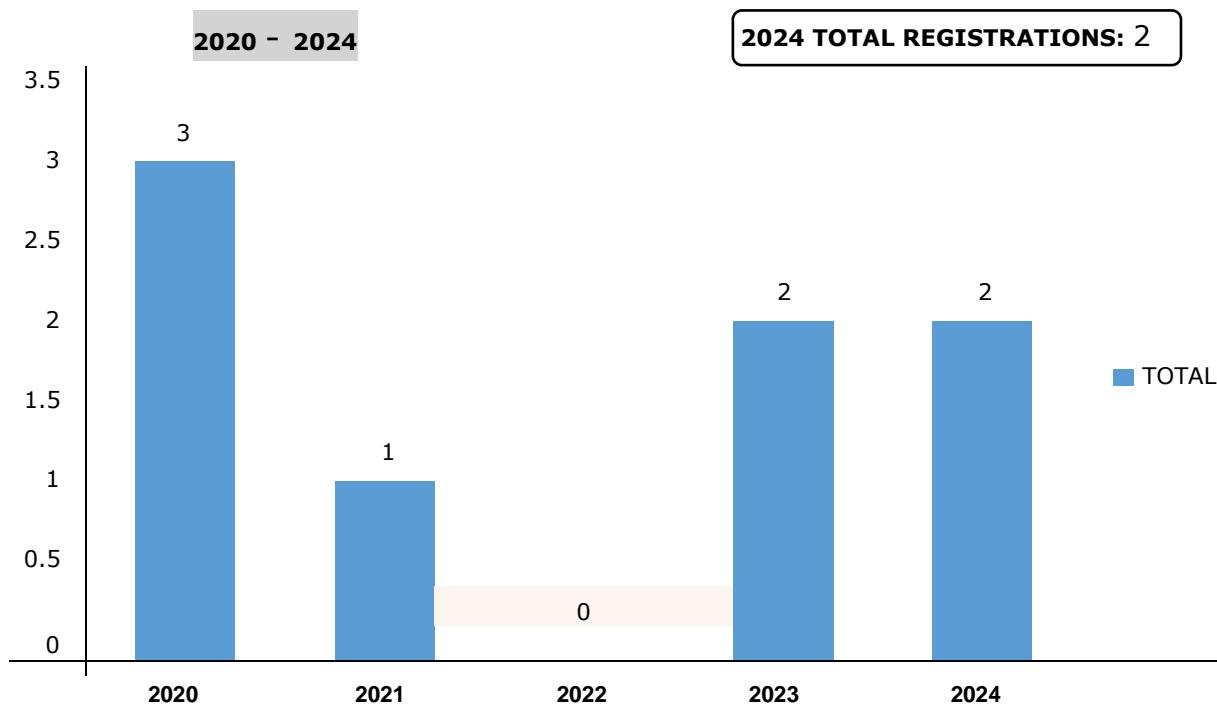

Figure 35. Bar Graph Of 2020-2024 Foundling Registrations
